Excerpt from The Dällenbachs in America, 1710-1935 This is a story of two continents.

Mountains, hills, valleys, lakes, rivers, and the broad Atlantic separate the two stages upon which this drama of a Family is played. Long journeys then, now a matter of only a few days, connected the two continents traversed by the seekers after new homes in the

Written as a technology guide for students, practitioners, and administrators, the focus of this book is on introducing current and future trends in library technology and automation within the larger context of strategic and systems planning, implementation, and continuous improvement. Technology is an essential resource for attaining both organizational and patron goals, and planning needs to emphasize the alignment between the clearly defined goals of each. technology is planned, designed, and implemented in such a way as to maximize utility and ease-of-use for users and employees. Readers of this book will understand both the why and the how of library technology, planning, and implementation articulated in a simple, easy-to-understand fashion. Delivered from academic, public, and school library media perspectives Current and emerging technologies are discussed along with their current and future application in the field of library and information science Technology planning and integration is explained using a systems design process with scenarios and case studies that are articulated in a step-wise, holistic fashion

'Heartbreaking and uplifting' -  
MEAGHAN WILSON  
ANASTASIOS 'An heroic saga' -  
MIKE MUNRO The dragon  
circles and swoops ... a tiger  
running alone in the night ...  
Mimi Kwa ignored the letter  
for days. When she finally  
opened it, the news was so  
shocking her hair turned grey.  
Why would a father sue his  
own daughter? The collision  
was over the estate of Mimi's  
beloved Aunt Theresa, but its  
seed had been sown long ago.  
In an attempt to understand  
how it had come to this, Mimi  
unspools her rich family history  
in House of Kwa. One of a  
wealthy silk merchant's 32  
children, Mimi's father,  
Francis, was just a little boy  
when the Kwa family became  
caught up in the brutal and  
devastating Japanese  
occupation of Hong Kong  
during World War II. Years  
later, he was sent to study in  
Australia by his now  
independent and successful  
older sister Theresa. There he  
met and married Mimi's  
mother, a nineteen-year-old  
with an undiagnosed, chronic

mental illness. Soon after,  
'tiger' Mimi arrived, and her  
struggle with the past - and the  
dragon - began ... Riveting,  
colourful and often darkly  
humorous, House of Kwa is an  
epic family drama spanning  
four generations, and an  
unforgettable story about how  
one woman finds the courage  
to stand up for her freedom  
and independence, squaring off  
against the ghosts of the past  
and finally putting them to  
rest. Throughout, her  
inspiration is Francis's late  
older sister, the jet-setting,  
free-spirited Aunt Theresa,  
whose extraordinary life is a  
beacon of hope in the darkness.

remarkable storytelling.' Trent

Memorable and vividly told, this is a book for anybody forced to survive their own parents.' Richard Glover 'From the back streets of China to war-torn Hong Kong to suburban Australia, this is an heroic saga that reveals just some of the stories behind the multi-cultural nation we are today.' Mike Munro AO 'This is a charming and compelling story, an insight into a deeply traditional Chinese family in times when China was undergoing internally and externally induced upheaval.' South China Morning Post 'A rich and riveting read which heralds a new chapter in Kwa's life as a writer. The spirited tiger, full of life and driven to achieve, has many stories to tell yet.' The Weekend Australian 'House of Kwa answers the question of how one should write about one's family with generosity and love

Traversing the boundaries of a traditional memoir, House of Kwa is the biography of a family that explores the way our lives are shaped by the past we can and cannot remember. Kill Your Darlings 'A rare work of non-fiction which balances page turning prose with lyrical depth. Do yourself and everyone you know a favour and dive in!' Megan Rogers An utterly captivating, gripping and inspirational tale of one woman's triumph over adversity. In this extraordinary multi-generational memoir, Kwa fearlessly grapples with questions of love, loyalty, and the power of the human spirit. *Mediating Ideology in Text and Image* - Inger Lassen  
2006-01-01

While ideology has been treated widely in CDA-literature, the role played by the interaction of text and image in multiplying meaning and furthering ideological stances has not so far received a lot of attention. *Mediating Ideology in Text and Image* offers a number of approaches to such analysis, offering students and academics valuable tools for identifying possible discrepancies between the world and the way it is represented through various mediational means. The authors' common aim is one of assisting the audience in reading between the lines, thus offering a variety of approaches that may contribute to a better understanding of how

ideologies possibly work and how they may be denaturalised from text and image. The articles in part I look at rhetorical strategies used in meaning construction processes unfolding in various kinds of mass media. Part II focuses on the re-semiotization of meaning and looks at how analysing the combination of text and image may contribute to a better understanding of ideological processes brought about by multimodal resources. Foreword by Ruth Wodak.

Law, Rights and Ideology in Russia - Bill Bowring

2013-04-17  
Law, Rights and Ideology in Russia: Landmarks in the destiny of a great power brings into sharp focus several key episodes in Russia's vividly ideological engagement with law and rights. Drawing on 30 years of experience of consultancy and teaching in many regions of Russia and on library research in Russian-language texts, Bill Bowring provides unique insights into people, events and ideas. The book starts with the surprising role of the Scottish Enlightenment in the origins of law as an academic discipline in Russia in the eighteenth

century. The Great Reforms of Tsar Aleksandr II, abolishing serfdom in 1861 and introducing jury trial in 1864, are then examined and debated as genuine reforms or the response to a revolutionary situation. A new interpretation of the life and work of the Soviet legal theorist Yevgeniy Pashukanis leads to an analysis of the conflicted attitude of the USSR to international law and human rights, especially the right of peoples to self-determination. The complex history of autonomy in Tsarist and Soviet Russia is considered, alongside the collapse of the USSR in 1991. An examination of Russia's plunge into the European human rights system under Yeltsin is followed by the history of the death penalty in Russia. Finally, the secrets of the ideology of 'sovereignty' in the Putin era and their impact on law and rights are revealed. Throughout, the constant theme is the centuries long hegemonic struggle between Westernisers and Slavophiles, against the backdrop of the

Life in Public Schools (RLE Edu L) - Geoffrey Walford

2012-05-16

Britain's public (that is, its major independent) schools have a conspicuous role in the country's social system, and as a result are the subject of a long-standing political debate.

The discussion is generally founded on a stereotyped image of what these school may have been like in the 1950s - this book shows how they were in the late 1980s. It is based on fieldwork in two major public boarding schools which the author conducted over an extended period, and draws on interviews, observation and documentary sources to establish a picture of what public school life is actually like for pupils and staff. Since the schools were predominantly male preserves, the major part of the book describes the social world and experiences of boys and schoolmasters. An important section of the book, however, discusses the introduction of girl pupils, the experiences of female teachers and the way schoolmasters' wives tend to be drawn into their husbands' work. Geoffrey Walford's conclusions about life in public schools differ considerably from traditional expectations. At the same time he asks whether there really has been a 'public school revolution'. His

book makes an important contribution to our knowledge of public schools, to debates in the sociology of education and to the issues of abolishing or extending the independent sector.

Reflecting the continued growth and increased interest in this area, the second edition describes a wide range of methods which account for local variations in geographical properties. and connections between them Chapters have been restructured to clarify the distinction between global and local methods A new section in each chapter references key studies or other accounts that support the book Selected resources provided online to support learning An introduction to the methods and their underlying concepts, the book uses worked examples and case studies to demonstrate how the algorithms work their practical utility and range of application. It provides an overview of a range of different approaches that have been developed and employed within Geographical Information Science (GIScience). Starting with first principles, the author introduces users of GISystems to the principles and application of some widely used local models for the analysis of spatial data, including methods being developed and employed in geography and cognate disciplines. He discusses the relevant software packages
