Our most memorable experiences, from holiday dinners to birthday parties, often include special foods. Incorporating food into classroom or small-group guidance lessons makes learning life skills more memorable, and allows students to process the information with all of their senses. Food for Thought addresses a wide range of social, emotional, and academic skills, and provides a high level of flexibility for educators. Students who aren't as strong in traditional academic skills, such as reading and writing, can participate in the lessons on an even playing field, and the incorporation of non-traditional

teaching methods helps all students to learn important skills in a relaxed, low-pressure environment. Each lesson can stand alone, and the lessons need not be taught in any particular order. The lessons are designed to facilitate short, thought-provoking discussions, and then to progress into activities involving social and cooperative learning. A tasty snack, related to the lesson, is then served to reinforce the main concepts addressed.

Topics include:

- Beginning the School Year
- Academic Skills

A rare look at emotional bullying among boys from the best-selling author of *My Secret Bully*. D.J.'s friend Vince has a habit of teasing D.J. and then saying, "Just kidding!" as if it will make everything okay. It doesn't, but D.J. is afraid that if he protests, his friends will think he can't take a joke. With the help of his father, brother, and an understanding teacher, D.J. progresses from feeling helpless to taking positive action, undermining the power of two seemingly harmless words. Trudy Ludwig takes another look at relational aggression, the use of relationships to manipulate and hurt others, this time from the boy's point of view. Back matter includes discussion questions, a "dos and don'ts of teasing" list, and a resource guide for parents and teachers. Endorsed by Full Esteem Ahead, The Hands & Words Are Not For Hurting Project, and The Ophelia Project.
