Of a Feather - Scott Weidensaul 2008-09-15
Beyond Audubon: A quirky, “lively and illuminating” account of bird-watching’s history, including “rivalries, controversies, [and] bad behavior” (The Washington Post Book World). From the moment Europeans arrived in North America, they were awestruck by a continent awash with birds—great flocks of wild pigeons, prairies teeming with grouse, woodlands alive with brilliantly colored songbirds. *Of a Feather*

traces the colorful origins of American birding: the frontier ornithologists who collected eggs between border skirmishes; the society matrons who organized the first effective conservation movement; and the luminaries with checkered pasts, such as Alexander Wilson (a convicted blackmailer) and the endlessly self-mythologizing John James Audubon. Naturalist Scott Weidensaul also recounts the explosive growth of modern birding that began when an awkward schoolteacher named Roger Tory Peterson published *A Field Guide to the Birds* in 1934. Today, birding counts iPod-wearing teens and obsessive “listers” among its tens of millions of participants, making what was once an eccentric hobby into something so completely mainstream it’s now (almost) cool. This compulsively readable popular history will surely find a roost on every birder’s shelf. “Weidensaul is a charming guide. . . . You don’t have to be a birder to enjoy this look at one of today’s fastest-growing (and increasingly competitive) hobbies.”

Lemon-Aid Used Cars and Trucks

2012-2013 - Phil Edmonston 2012-05-19

Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have

gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.
