Encyclopedia of Time - H. James Birx 2009-01-07

"With a strong interdisciplinary approach to a subject that does not lend itself easily to the reference format, this work may not seem to support directly academic programs beyond general research, but it is a more thorough and up-to-date treatment than Taylor and Francis's 1994 *Encyclopedia of Time*. Highly recommended." —Library Journal
STARRED Review Surveying the major facts, concepts, theories, and speculations that infuse our present comprehension of time, the *Encyclopedia of Time: Science, Philosophy, Theology, & Culture* explores the contributions of scientists, philosophers, theologians, and creative artists from ancient times to the present. By drawing together into one collection ideas from scholars around the globe and in a wide range of disciplines, this *Encyclopedia* will provide readers with a greater understanding of and appreciation for the elusive phenomenon experienced as time. Darkness Visible - Karlo V. Bordjadze 2017-10-09

How does one read the Old Testament as Christian Scripture? This question, voiced in both academic and ecclesial settings, invites a reflection on how to take these texts with both hermeneutical alertness and sustained imaginative seriousness. While scholars have recently engaged in robust discussion about theological hermeneutics, there have been relatively few worked examples with particular Old Testament texts. This book seeks to meet this need by providing a close reading of Isaiah 14:3-23, a text with a complex amalgam of textual, historical-critical, history-of-reception, and theological issues.

Spiritual Concepts for a New Age - Connie Johnson 2012-04-13

We are spiritual beings living in a human experience. Our souls are energy, but each time we incarnate we take on a human body. We have relationships with other embodied beings; we must concern ourselves

with the issues, situations, and circumstances of life here on Earth. *Spiritual Concepts for a New Age* is an easy-to-read, comprehensive guide to living a spiritually significant life. With the assistance of our spiritual guardians, we can learn to live lives that are in balance with our souls desire for harmony and peace. We can unlock our personal truths and begin to experience psychic serenity. How do the laws of abundance and attraction interact with the laws of reincarnation and karma? What role do spiritual guardians play? Learn how universal law operates in our daily lives and in our relationships with others. Explore soul ages and stages. Discover the Akashic Record and learn how our past lives influence our current existence. Learn the difference between meditation and channeling. Determine how messages, signs, and information can be obtained. Use the easy reference guides for sign interpretation. Determine your own metaphysical blueprint and those of friends and family. Connie Johnson has had a lifetime career as a social worker. She earned her social welfare degree at the University of Minnesota during a time when community activism and personal empowerment were emphasized. She has had extensive experience working with those who are mentally, emotionally, and behaviorally challenged. Connie has a co-history in metaphysics. When she was in Washington DC to attend a gender equality conference, she was introduced to spiritual concepts that embraced philosophies outside of the conventional Judeo-Christian expressions. Within the Judeo-Christian tradition, less customary or accepted perceptions of God and the Universe were examined, as well. Connie has had a lifetime interest in human behavior, in the metaphysical world, and in the interaction between spirituality, and feelings, thoughts, and actions. She has a special interest in reincarnation, soul ages, karma, and past life issues. She is a numerologist, a reader of the tarot, and a practicing psychic. Connie lives in St Paul, Minnesota, where she is happily surrounded by family and friends.

Tree Whispering - Jim Conroy 2011-10

Tree Whispering offers a simple yet profound personal experience of communicating with Green Beings. This book introduces a revolutionary worldview that moves away from human-centric "we know best" attitudes and toward communication, cooperation, partnership, and co-creativity with all of Nature. It guides readers, step by step, to come from the trees' and plants' point of view while providing useful healing techniques and respectful approaches for rejuvenating tree and plant health.

Readers will celebrate their strengthened connection with Nature.

Whispering with trees, plants, and all of Nature opens up possibilities:

For people, a heart-warming experience, a shift in thoughts and actions, expansion of healthy well-being, and reconnection to the sacredness of life. For Nature, vigorous growth for trees and plants, balanced and sustainable ecosystems, and coexistence among trees, plants, insects, diseases, and related organisms, and people. For Earth, reconstitution of dynamic balance on a large scale.

Searching for Madre Matiana - Edward Wright-Rios 2014-12-01

In the mid-nineteenth century prophetic visions attributed to a woman named Madre Matiana roiled Mexican society. Pamphlets of the time proclaimed that decades earlier a humble laywoman foresaw the nation's

calamitous destiny—foreign invasion, widespread misery, and chronic civil strife. The revelations, however, pinpointed the cause of Mexico's struggles: God was punishing the nation for embracing blasphemous secularism. Responses ranged from pious alarm to incredulous scorn. Although most likely a fiction cooked up amid the era's culture wars, Madre Matiana's persona nevertheless endured. In fact, her predictions remained influential well into the twentieth century as society debated the nature of popular culture, the crux of modern nationhood, and the role of women, especially religious women. Here Edward Wright-Rios examines this much-maligned—and sometimes celebrated—character and her position in the development of a nation.

As you Like it - William Shakespeare 2014-01-10

This annotated version of *As you Like it*, one of the Bard's wittiest and bawdiest plays, provides a detailed guide to its Elizabethan language and its references. It restores the drama to the language of the First Folio of 1623, including the original spelling, capitalization and punctuation. Practical annotation provides insights into the puns, allusions and word-play that characterize all of Shakespeare's dramas. Appendices enumerate the typographical errors that have been corrected in this version, in addition to offering stage directions from the First Folio, lineation amendments and original character tags. This restorative, no-nonsense approach will appeal to both aficionados and newcomers to Shakespeare's plays.

Sacred Trees - Nathaniel Altman 2017-03-12

Since the dawn of history, trees have played a central role in the survival

of humanity and the flowering of myriad cultures. Not surprisingly, people the world over have revered trees for their life-giving and life-affirming nature. But modern societies have lost touch with that sense of reverence. Sacred Trees rekindles a once-broadly felt kinship with the natural world. Through vivid history and myth drawn from hundreds of the world's cultures- from the ancient Egyptians and the Druids of early Britain to today's indigenous Hawaiians- Nathaniel Altman reveals the special relationship people have always shared with trees. Here are cosmic trees of the Norse, regarded as the symbol of universal life, the ancestral trees of ancient Rome, seen as the birthplace of humankind, and the biblical tree of knowledge, responsible for the fall of humanity. Richly illustrated, Sacred Trees offers us the devotion that traditional cultures have shown towards trees and teaches us that respect, reverence, and communion with the rest of nature are essential for the healing of Mother Earth.

Finding the Mother Tree - Suzanne Simard 2021-05-04

NEW YORK TIMES BEST SELLER • From the world's leading forest ecologist who forever changed how people view trees and their connections to one another and to other living things in the forest—a moving, deeply personal journey of discovery Suzanne Simard is a pioneer on the frontier of plant communication and intelligence; her TED talks have been viewed by more than 10 million people worldwide. In this, her first book, now available in paperback, Simard brings us into her world, the intimate world of the trees, in which she brilliantly illuminates the fascinating and vital truths--that trees are not simply the source of timber or pulp, but are a complicated, interdependent circle of life; that forests are social, cooperative creatures connected through underground networks by which trees communicate their vitality and vulnerabilities with communal lives not that different from our own. Simard writes--in inspiring, illuminating, and accessible ways—how trees, living side by side for hundreds of years, have evolved, how they learn and adapt their behaviors, recognize neighbors, compete and cooperate with one another with sophistication, characteristics ascribed to human intelligence, traits that are the essence of civil societies--and at

the center of it all, the Mother Trees: the mysterious, powerful forces that connect and sustain the others that surround them. And Simard writes of her own life, born and raised into a logging world in the rainforests of British Columbia, of her days as a child spent cataloging the trees from the forest and how she came to love and respect them. And as she writes of her scientific quest, she writes of her own journey, making us understand how deeply human scientific inquiry exists beyond data and technology, that it is about understanding who we are and our place in the world.

Essential Oils in Spiritual Practice - Candice Covington 2017-11-21
Using essential oils to influence your energetic make-up and karmic patterns • Details how to identify which tattvas--the Five Great Elements--are dominant in your energetic make-up • Explores the energetic signatures of the essential oils associated with each tattva and chakra, including their archetypes, sacred geometry, sacred sounds, and colors • Explains how to identify your personal vibrational signature, purify your energy body, impart vibrational properties to jewelry, and work with yantras and mantras The tattvas, the Five Great Elements--earth, water, fire, air/wind, and ether/space--create and sustain not only the universe but also all of its inhabitants. Each of us has a unique combination of these elemental energies behind our personal characteristics--everything from the color of our eyes to our behaviors and emotional temperament. What tattvas are dominant in your make-up can also be influenced by your surroundings and by karma. Essential oils, in addition to working biologically and chemically, also work at the energetic level, making them ideal for working with the tattvas. Teaching you how to use essential oils to affect the very fabric of your being, Candice Covington details how the Tattvas Method of essential oils allow you to access the deepest, most hidden aspects of Self, those beyond the reach of the mind, the very energetic causation patterns that set all behaviors and thoughts into motion. She reveals how the tattvas are the energy that animate each chakra and how we can use their archetypal energy to shape our inner life and align with our greater soul purpose. The author provides energetic profiles of each tattva, chakra, and essential oil,

explains their relationships to one another, and details how to identify what tattva or chakra is dominant at any given time. Exploring the energetic signatures of the tattvic essential oils, she details their elemental make-up, animal and deity archetypes, sacred geometry symbols, sacred syllables, and colors. She reveals how to discover the energy patterns responsible for directing unhealthy life patterns and explains how to identify your personal vibrational signature, purify your energy body, and craft your own unique ritual practice with essential oils. Showing how essential oils are powerful vibrational tools for effecting change, the author reveals how they allow each of us to deliberately steer our own destiny, fulfill our personal dharma, and be all that our souls intended us to be.

Capturing the Younger Brothers Gang in the Northern Plains - Arley Kenneth Fadness 2022-06-27

Capturing the Younger Brothers Gang in the Northern Plains: The Untold Story of Heroic Teen Asle Sorbel is a historic tale of vigilante valor Near sleepy Hanska slough, September 21, 1876, Norwegian teen Asle Sorbel made a daring "Paul Revere ride" into Madelia, Minnesota. His efforts, and those of the Madelia Magnificent Seven, led to the capture of the Younger Brothers of the Jesse James-Younger Gang. The gang's botched Northfield bank raid and infamous Madelia Shoot Out were well reported. But, Asle's story was lost to history. Friends of the outlaws planned reprisals. Asle changed his name, his persona and his location. He kept his mouth shut. In 1883, he quietly reestablished himself in Dakota Territory. As years passed, he became the premier horse doctor in the Webster, South Dakota area, all the while haunted by vigilant fear. Author Arley K. Fadness uncovers the lost secrets and remarkable life of valiant Asle Oscar Sobel.

An Abecedarian of Sacred Trees - Mark G. Boyer 2016-12-09

Every person has seen a tree and maybe planted or climbed one! In all world religions, various trees are considered sacred. Trees have the ability to help us reach wholeness if we learn their wisdom and integrate

it into our lives. This abecedarian--a book whose contents are in alphabetical order--explores the spiritual growth that is possible by reflecting on the wisdom of woody plants, which help humans experience the divine. In these pages you can explore trees from Acacia to Zaqquum. For each of the forty entries, the author presents a text identifying the tree, a reflective study, a question for journaling or personal meditation, and a concluding prayer. Some trees you may have heard about, and some may be new to you. The spiritual life is enhanced by the trees that surround and share the earth with us while also disclosing the divine to us.

The Meaning of Trees - Fred Hageneder 2005-09

Presents full-color illustrated photographs that describes the botany, history, mythology, and folklore of some of the world's most unique trees including California's giant redwood.

The Changing World Religion Map - Stanley D. Brunn 2015-02-03

This extensive work explores the changing world of religions, faiths and practices. It discusses a broad range of issues and phenomena that are related to religion, including nature, ethics, secularization, gender and identity. Broadening the context, it studies the interrelation between religion and other fields, including education, business, economics and law. The book presents a vast array of examples to illustrate the changes that have taken place and have led to a new world map of religions. Beginning with an introduction of the concept of the "changing world religion map", the book first focuses on nature, ethics and the environment. It examines humankind's eternal search for the sacred, and discusses the emergence of "green" religion as a theme that cuts across many faiths. Next, the book turns to the theme of the pilgrimage, illustrated by many examples from all parts of the world. In its discussion of the interrelation between religion and education, it looks at the role of missionary movements. It explains the relationship between religion, business, economics and law by means of a discussion of legal and moral frameworks, and the financial and business issues of religious organizations. The next part of the book explores the many "new faces" that are part of the religious landscape and culture of the Global North

(Europe, Russia, Australia and New Zealand, the U.S. and Canada) and the Global South (Latin America, Africa and Asia). It does so by looking at specific population movements, diasporas, and the impact of globalization. The volume next turns to secularization as both a phenomenon occurring in the Global religious North, and as an emerging and distinguishing feature in the metropolitan, cosmopolitan and gateway cities and regions in the Global South. The final part of the book explores the changing world of religion in regards to gender and identity issues, the political/religious nexus, and the new worlds associated with the virtual technologies and visual media.

The Spirit of Trees - Fred Hageneder 2017-02

Trees are one of Earth's oldest life forms; silent witnesses to human evolution and the passing of time. Many people today are unaware of their significance in Earth's ecology, their medicinal and nutritional properties, or the veneration bestowed on them by ancient peoples. This book captures all these elements in an inspiring holistic appraisal. Hageneder looks in detail at 24 of Europe and North America's best-loved trees: their physical characteristics, their healing powers, the traditions associated with them and how they have inspired human beings through the ages. Beautifully illustrated with black and white photographs and illustrations.

Botanical Shakespeare - Gerit Quealy 2017-04-11

A captivating, beautifully illustrated, one-of-a-kind color compendium of the flowers, fruits, herbs, trees, seeds, and grasses cited in the works of the world's greatest playwright, William Shakespeare, accompanied by their companion quotes from all of his plays and poems. With a foreword by Dame Helen Mirren—the first foreword she has ever contributed. In this striking compilation, Shakespeare historian Gerit Quealy and respected Japanese artist Sumié Hasegawa combine their knowledge and skill in this first and only book that examines every plant that appears in the works of Shakespeare. Botanical Shakespeare opens with a brief look at the Bard's relationship to the plants mentioned in his works—a diversity that illuminates his knowledge of the science of botany, as well as the colloquy, revealing his unmatched skill for creating metaphorical connections and interweaving substantive philosophy. At the heart of the book are "portraits" of the over 170 flowers, fruits, grains, grasses, trees, herbs, seeds and vegetables that Shakespeare mentions in his plays and poems. Botanical Shakespeare features a gorgeous color illustration of each, giving a "face" to the name, alongside the specific text in which it appears and the character(s) who utter the lines in which it is mentioned. This fascinating visual compendium also includes a dictionary describing each plant—such as Eglantine, a wild rose with a slight prickle, cherished for its singular scent, superior to any other rose; and the difference between apples and apple-john—along with indices listing the botanical by play/poem, by character, and genus for easy reference, ideal for gardeners and thoughtful birthday gift-giving. This breathtaking, incomparable collection of exquisite artwork and companion quotes offers unique depth and insight into Shakespeare and his timeless work through the unusual perspective of the plants themselves.

Celebritrees - Margi Preus 2011-03-01

Some trees have lived many lifetimes, standing as silent witnesses to history. Some are remarkable for their age and stature; others for their usefulness. A bristlecone pine tree in California has outlived man by almost 4,000 years; a baobab tree in Australia served as a prison for Aboriginal prisoners at the turn of the twentieth century; and a major oak in England was used as a hiding place for Robin Hood and his men (or so the story goes...). The fourteen trees in this book have earned the title "Celebritrees" for their global fame and significance. Both in fact and in legend, these fascinating trees remind us not only how much pleasure trees bring, but what they can tell us about history.

Be More Tree - Alice Peck 2016-09-06

As author Alice Peck reflected on the maple tree in her backyard, she began to notice and then study its intricacies and changes. This became her regular meditation and inspiration. In *Be More Tree*, Alice shares what she has learned from that maple tree, and from the trees all around us. Every tree tells a complete and ongoing storyâ€”from its powerful taproots to the birds that alight on its fragile high branches.â€”Trees reflect our lives through their perseverance and seasonal rhythmsâ€”always changing yet consistent. They evolve along a much more protracted timetable than humans. Like us, trees feel and react to their environment, and communicate with us in subtle but distinct ways. Here readers are invited to explore trees from four perspectives: their rootsâ€”wisdom and understanding; their branchesâ€”symbols and

rituals; their leavesâ€”healing and science; and their seedsâ€”transformation and spirituality. All of these elements show us how, although they live outside us, trees offer a path to our inner selves. From the Bodhi Tree to the Garden of Eden, the Druids to forest monks, medicines to tire swingsâ€”people have always received physical, psychological, and spiritual sustenance from trees. Filled with insights from botany to poetry, ecology to mythology, and herbalism to sacraments, *Be More Tree* explores the ways these grounded yet soaring entities can steady and move us, teach and transform us, inspire and comfort us.

The Tree Angel Oracle - Fred Hageneder 2006

Scripture Natural History, Or a Descriptive Account of the Zoology, Botany and Geology of the Bible - William Carpenter 1828

Neem - National Research Council 1992-02-01

The neem tree, one of the most promising of all plants, may eventually benefit every person on the planet. Probably no other plant yields as many varied products or has as many exploitable by-products. Indeed, as foreseen by some scientists, this tree may usher in a new era in pest control; provide millions with inexpensive medicines; cut the rate of population growth; and perhaps even reduce erosion, deforestation, and the excessive temperature of an overheated globe. On the other hand, although the enthusiasm may be justified, it is largely founded on exploratory investigations and empirical and anecdotal evidence. The purpose of this book is to marshal the various facts about this little-known species, to help illuminate its future promise, and to speed realization of its potential.

Names on the Land - Irvin Magin 2011-10-31

The principal reason for my doing this project was simply because I wanted to do it! I've long been interested in toponomy - the science of placenames - and until now, with the privilege of retirement, was afforded the time to do it. It was mentally laborious, time consuming, (a guesstimated 10,000 hours over a 6-year period), highly educational and greatly rewarding. I have always had an interest in dissecting things, analyzing them and then restructuring the information gathered into a new form with the hope of producing a pleasant result. In order to do this, I had some help. My best helpmates in gathering the information I

sought were things seen on paper, not things seen on a screen. I feel good about the fact that I, coming from another era, did not employ any electronic means to accomplish the task. And it was all formed out with the use of an antiquated device known as a typewriter! My principal information buddies were the 2-volume U.S. Postal Service Zip Code and Post Office Directory, the 50-state Rand McNally road map inventory, and each states official road map. The indices to each of these individual road maps followed by a thorough hand-and-eye scanning of their surface provided the means to lift the names of these entries - nearly 22,000 of them! The names are a smattering of old names and new names, common names, usual names and unusual names but basically this is a study involving physical geography, with placenames formed from lots of nouns, pronouns, verbs, adverbs, and a few conjunctions. Its physical! Many of the placenames chosen for inclusion in this piece were chosen because they involved things essential to the early settlement and survival of this country.

Making Curriculum Pop - Pam Goble 2016-02-22

From body art to baseball cards, comics to cathedrals, pie charts to power ballads . . . students need help navigating today's media-rich world. And educators need help teaching today's new media literacy. To be literate now means being able to read, write, listen, speak, view, and represent across all media—including both print and nonprint texts, such as film, TV, podcasts, websites, visual art, fashion, architecture, landscape, and music. This book offers secondary teachers in all content areas a flexible, interdisciplinary approach to integrate these literacies into their curriculum. Students form cooperative learning groups to evaluate media texts from various perspectives (artist, producer, sociologist, sound mixer, economist, poet, set designer, and more) and show their thinking using unique graphic organizers aligned to the Common Core State Standards

The Sacrament of Conception - Muriel Lede 2010-06-06

A TALE OF POLYAMORY, POETRY, AND SPIRITUALITY. A devout young couple is prompted by Providence to conceive a child on holy ground. They comply wholeheartedly, having carefree, scorching sex together

while deepening their intimacy in unforeseen ways. But then they are summoned overseas to complete the ritual which, upon disclosure of its shocking continuation, they realize reaches far deeper than what they had initially committed to. Somber revelations and mortal danger shall test their resolve to carry through an ordeal that threatens their very lives and faith. Will they carry out their mission and return home unscathed? Find out through the account of their peripetias, imbued with overlooked exoticism, spicy sensuality, irreverent prosody, and ontological shock, as they journey across the Old Continent to uncover the mystery of their origins, rooted beneath shrouds of biblical proportions.

Folklore and Symbolism of Flowers, Plants and Trees - Ernst Lehner 2003-10-23

This profusely illustrated archive of more than 200 flowers, plants and trees was compiled by two of the world's foremost collectors of pictorial symbols — who also happen to be devoted flower enthusiasts. Their comprehensive collection, rendered from rare illustrations, extends from ancient Chinese lotus buds to a basket of flowers in a 19th-century Valentine silhouette. Bouquets, wreaths, flowers of the months, and other floral designs are also included. In addition to providing a table summarizing the symbolic meanings of every known species — from absinth to zinnia — the authors explain the religious, magical and legendary significance of such flora as the mandrake, resurrection flower and mistletoe, and trace the development of many horticultural images in heraldic devices, emblems, and symbols. A visual treat for flower lovers, this essential sourcebook for artists, designers, and folklore enthusiasts will also be of value to botanical and gardening specialists.

Strength from the Waters - James V. Mestaz 2022-10

Strength from the Waters is an environmental and social history that frames economic development, environmental concerns, and Indigenous mobilization within the context of a timeless issue: access to water. Between 1927 and 1970 the Mayo people—an Indigenous group in northwestern Mexico—confronted changing access to the largest freshwater source in the region, the Fuerte River. In *Strength from the Waters* James V. Mestaz demonstrates how the Mayo people used newly available opportunities such as irrigation laws, land reform, and cooperatives to maintain their connection to their river system and protect their Indigenous identity. By using irrigation technologies to increase crop production and protect lands from outsiders trying to claim it as fallow, the Mayo of northern Sinaloa simultaneously preserved their identity by continuing to conduct traditional religious rituals that paid homage to the Fuerte River. This shift in approach to both new technologies and natural resources promoted their physical and cultural survival and ensured a reciprocal connection to the Fuerte River, which bound them together as Mayo. Mestaz examines this changing link between hydraulic technology and Mayo tradition to reconsider the

importance of water in relation to the state's control of the river and the ways the natural landscape transformed relations between individuals and the state, altering the social, political, ecological, and ethnic dynamics within several Indigenous villages. Strength from the Waters significantly contributes to contemporary Mexicanist scholarship by using an environmental and ethnohistorical approach to water access, Indigenous identity, and natural resource management to interrogate Mexican modernity in the twentieth century.

Globalizing the Peasant - Virginia L. Lewis 2007

Globalizing the Peasant examines literary narratives from across the globe as an affective archive of crucial information regarding the human experience of globalization over the last 150 years. Her revealing lens is focused on agrarian populations whose deep emotional and spiritual attachment to the land has been irrevocably disrupted by the globalization processes of enclosure, commodification, and industrialization. In a wide-ranging corpus of texts from what Lewis terms Global Land Literature, she uncovers a well-spring of evidence

concerning the harmful impact of globalization on human efforts to secure a happy existence and derive meaning and value from life. At the same time, she reveals that these very narratives are a crucial resource for ways to counteract the often destructive tendencies of global commercialization. Globalizing the Peasant thus underscores the abiding relevance of literature as an indispensable guide for ethical conduct in the new millennium.
