Wishful Drinking - Carrie Fisher 2012-02-02
'Wishful Drinking is a touching and incisive account of bipolarity, addiction and motherhood.' Independent 'No motive is pure. No one is good or bad - but a hearty mix of both. And sometimes life actually gives to you by taking away.' Carrie Fisher in *Wishful Drinking*
In *Wishful Drinking*, Carrie Fisher told the true

and intoxicating story of her life with inimitable wit. Born to celebrity parents, she was picked to play a princess in a little movie called *Star Wars* when only 19 years old. "But it isn't all sweetness and light sabres." Alas, aside from a demanding career and her role as a single mother (not to mention the hyperspace hairdo), Carrie also spends her free time battling

addiction and weathering the wild ride of manic depression. It's an incredible tale: from having Elizabeth Taylor as a stepmother, to marrying (and divorcing) Paul Simon, and from having the father of her daughter leave her for a man, to ultimately waking up one morning and finding a friend dead beside her in bed. Carrie Fisher's star-studded career included roles in numerous films such as *The Blues Brothers* and *When Harry Met Sally*. She was the author of four bestselling novels, *Surrender in the Pink*, *Delusions of Grandma*, *The Best Awful* and *Postcards from the Edge*, which was made into a hit film starring Shirley MacLaine and Meryl Streep. Carrie's experience with addiction and mental illness - and her willingness to talk honestly about them - made her a sought-after speaker and respected advocate. She was truly one of the most magical people to walk among us. Further praise for Carrie Fisher:- [Shockaholic] is the finest, funniest chronicler of the maddest celebrity mores.' Sunday Times

'Fisher has a talent for lacerating insight that masquerades as carefree self-deprecation' Los Angeles Times
'She is one of the rare inhabitants of La-La Land who can actually write' New York Times

The Crazy Lives of Police Wives - Carolyn Whiting 2014-04-23

A Police Officer's calling in life is to serve and protect, and he would willingly lay down his life for all. If he would do that for a stranger, imagine all that he would do for his wife. Our law enforcement husbands are our heroes, we love them dearly and we wouldn't trade them for the world, but being a Law Enforcement Officer's wife comes with its own set of challenges. Law enforcement wives from across North America share communal advice, wisdom, experience, insight and laughter with fellow LEO wives. We offer a peek into our world, "the heart of the badge," to our husbands, families, friends and neighbors. *** To further the mission of the book, author proceeds are donated to police

Murder in Memphis - Dorris D. Porch 2005

Recounts a family's attempts to solve the murder of one of their kin, a Memphis woman named Deborah Watts, in a case stretching over twenty years, from 1977 to 1997.

Human Bullets - Tadayoshi Sakurai 1999-01-01

The impact of the Russo-Japanese War of 1904-05 was incalculable. It was the first victory by an Asian power over a European one since the Mongol invasions of the thirteenth century.

Japanese victory was ascribed to the "spirit" of the Japanese people, which helped their soldiers to overcome superior numbers and technology.

A fascinating glimpse into prevailing nationalistic and militaristic attitudes in early-twentieth-century Japan, *Human Bullets* is also an engaging story of combat and an excellent source of insights about a relatively obscure but immensely influential conflict. Tadayoshi Sakurai was a junior officer in the Japanese campaign against Port Arthur, Russia's ice-free

port in China. His account is an interesting introduction to the concept of *yamato-damashii*, or "traditional Japanese spirit." This spirit was something greater than mere high morale. Japanese soldiers were the emperor's "human bullets." Like bullets, they were unconcerned with victory, comfort, or self-preservation, existing only to strike the enemy.

new life is threatened when she witnesses a murder.

2000 Miles to Open Road - Trey R. Barker
With a murder indictment hanging over his head, an angry cop on his tail, and an unknown woman who just dove through his car window during a shootout at the Carson City sewage plant, Halford Turnbull has just one goal ... To prove his innocence. Not to the prosecutors, not to the cops. To his brother. But brother Hanford is halfway across the country and between Carson City, Nevada and Huntsville, Texas is a pile of trouble that Hal simply can't seem to avoid. From stealing \$20,000 to buy a DVD of a murder, to a low-rent casino in Vegas where a sadistic security guard is killed and a church filled with self-flagellant priests in Valentine, Texas, where a second shoot-out leaves a riot of bodies, Hal simply can't catch a break. And during it all, Hal wavers. He wants to prove to his brother-the good brother-that he isn't a killer. But as situations begin to pile up, Hal

thinks less of his brother than his girlfriend and a safe, new life in Mexico. In a drive-in movie parking lot, he and his girlfriend and brother finally are forced to face both Hal's haunting demons and the man who created the DVD of murder, and who wants his property back. It is a 2000 mile journey that could lead to redemption and could just get him killed, and yet there is no way Hal Turnbull can avoid driving those miles. Praise for 2000 MILES TO OPEN ROAD ...
"Double-crosses, triple-crosses, a storm of bullets, and one bloody grab at redemption ... and Hal Turnbull still has 2000 miles to go. This is a mean, greasy V-8 of a book, and Trey Barker's at the wheel. Buckle up." — Sean Doolittle, author of *Burn, Dirt, and Rain Dogs* "A new voice in the crime fiction world, Trey R. Barker has made himself heard with this book. It's kind of like Quentin Tarrantino on Methamphetamines. It's not really a caper, but has some of those elements. It's really just about a guy trying to get through an ordeal, and

hopefully redeem himself a bit in the process. Barker writes with fury and the action in this book propels it at light speed. And yet the anchor here is the characters, human and flawed, but true. Barker has come to kick some ass and chew some bubblegum, and he's all out of bubblegum." — Crimespree Magazine, August 2005

Is This Anything? - Jerry Seinfeld 2020-10-06

The first book in twenty-five years from "one of our great comic minds" (The Washington Post) features Seinfeld's best work across five decades in comedy. Since his first performance at the legendary New York nightclub "Catch a Rising Star" as a twenty-one-year-old college student in fall of 1975, Jerry Seinfeld has written his own material and saved everything. "Whenever I came up with a funny bit, whether it happened on a stage, in a conversation, or working it out on my preferred canvas, the big yellow legal pad, I kept it in one of those old school accordion folders," Seinfeld writes. "So I have

everything I thought was worth saving from forty-five years of hacking away at this for all I was worth." For this book, Jerry Seinfeld has selected his favorite material, organized decade by decade. In this "trove of laugh-out-loud one-liners" (Associated Press), you will witness the evolution of one of the great comedians of our time and gain new insights into the thrilling but unforgiving art of writing stand-up comedy.

Designing Embedded Hardware - John Catsoulis 2002

Intelligent readers who want to build their own embedded computer systems-- installed in everything from cell phones to cars to handheld

organizers to refrigerators-- will find this book to be the most in-depth, practical, and up-to-date guide on the market. Designing Embedded Hardware carefully steers between the practical and philosophical aspects, so developers can both create their own devices and gadgets and customize and extend off-the-shelf systems.

There are hundreds of books to choose from if you need to learn programming, but only a few are available if you want to learn to create hardware. Designing Embedded Hardware provides software and hardware engineers with no prior experience in embedded systems with the necessary conceptual and design building blocks to understand the architectures of embedded systems. Written to provide the depth of coverage and real-world examples developers need, Designing Embedded Hardware also provides a road-map to the pitfalls and traps to avoid in designing embedded systems. Designing Embedded Hardware covers such essential topics as: The principles of developing computer

hardware Core hardware designs Assembly language concepts Parallel I/O Analog-digital conversion Timers (internal and external) UART Serial Peripheral Interface Inter-Integrated Circuit Bus Controller Area Network (CAN) Data Converter Interface (DCI) Low-power operation This invaluable and eminently useful book gives you the practical tools and skills to develop, build, and program your own application-specific computers.

Brother, I'm Dying - Edwidge Danticat 2007

In a personal memoir, the author describes her relationships with the two men closest to her-- her father and his brother, Joseph, a charismatic pastor with whom she lived after her parents emigrated from Haiti to the United States.

Cops Don't Cry - Vali Stone 1999-01-01

Policing is a consuming profession with incredibly high elements of stress. Research suggests that police divorce rates are more than double the national average of ordinary marriages. The spouse's fear of physical danger,

adjusting to shift work, transfers and changes in the officers' personality are only a few of the contributing factors, but the most crucial problem is the breakdown of communication within the relationship. From the beginning of the officers' careers they are trained to control their emotions, and thus are accused of being cold-hearted. Spouses agree that law enforcement officers grapple with the real-life horrors on the job and that the bitter belief that 'cops don't cry' is sadly untrue.

Spin Cycle - Sue Margolis 2004-06-01

Her husband left her for another man. Her

boyfriend may be cheating. Her mother's got a secret. Is everyone having great sex but Rachel? Lately, stand-up comic Rachel Katz's life has begun to resemble a not-so-funny comedy routine — the kind where nobody laughs and everybody inches toward the door. It began when her husband cheated ... with another man. Now she's raising a ten-year-old son who's fixated on Barbra Streisand and wondering if her dentist boyfriend — who won't stop flossing long enough to make love to her — is having an affair. Enter Matt Clapton, a wickedly sexy washing machine repairman who likes Rachel's jokes and makes her feel like a woman for the first time in ages — maybe in her entire life. With her mother busy planning a wedding Rachel isn't sure she wants, her son dead set on inviting Barbra to the reception, and the groom-to-be in South Africa, working on someone else's oral hygiene, the question is: What's she going to do about it? Especially when fame and fortune beckon in a comedy contest that could put her on the map ...

and change her life forever. Spin Cycle tells a wickedly funny, shamelessly erotic story of lovers and liars, exes and children, parents and other strangers. This hip and hilarious new novel by the acclaimed author of Neurotica introduces a heroine who never loses her sense of humor and who discovers, somewhere between the rinse and spin cycles, that love — and laughter — can truly conquer all.

Sum Swerve - Gabriel Leif Bellman 2003-11-10
SUM SWERVE (short s.f. stories) Add it up—these short stories, songs, poems, plays, and operas have been assembled with the meaning of life in mind: for fun. Written by a silverback gorilla in Java, translated to C++, encrypted, mailed to the admissions office of a California law school during the Great Depression and then held in probate for forty years before slipping in off the waitlist, SUM SWERVE slices the imagination, massages the prostate, and is yours to keep (for a low-low price!) These short stories love you. You need them. Put under the

unbalanced leg of your pool table when facing the devil in a game of 8 ball with nothing less than your soul stake, here are stories to steady your cue when two banks, corner pocket, comes around. Strike it, sink it, and in the end- it was all propped up on SUM SWERVE.

The Women's Pages - Victoria Purman

2020-09-01

From the bestselling author of *The Land Girls* comes a beautifully realised novel that speaks to the true history and real experiences of post-war Australian women. Sydney 1945 The war is over, the fight begins. The war is over and so are the jobs (and freedoms) of tens of thousands of Australian women. The armaments factories are making washing machines instead of bullets and war correspondent Tilly Galloway has hung up her uniform and been forced to work on the women's pages of her newspaper - the only job available to her - where she struggles to write advice on fashion and make-up. As Sydney swells with returning servicemen and the city bustles

back to post-war life, Tilly finds her world is anything but normal. As she desperately waits for word of her prisoner-of-war husband, she begins to research stories about the lives of the underpaid and overworked women who live in her own city. Those whose war service has been overlooked; the freedom and independence of their war lives lost to them. Meanwhile Tilly's waterside worker father is on strike, and her best friend Mary is struggling to cope with the stranger her own husband has become since being liberated from Changi a broken man. As strikes rip the country apart and the news from abroad causes despair, matters build to a heart-rending crescendo. Tilly realises that for her the war may have ended, but the fight is just beginning... PRAISE 'A richly crafted novel that graphically depicts life during those harrowing years. A touching tale and an enthralling read.' Reader's Digest 'A powerful and moving book.' Canberra Weekly

Factfulness - Hans Rosling 2018-04-03
INSTANT NEW YORK TIMES BESTSELLER

“One of the most important books I’ve ever read—an indispensable guide to thinking clearly about the world.” - Bill Gates “Hans Rosling tells the story of ‘the secret silent miracle of human progress’ as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly.” —Melinda Gates “Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases.” - Former U.S. President Barack Obama

Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions

about global trends—what percentage of the world’s population live in poverty; why the world’s population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don’t know what we don’t know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its

imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, *Factfulness* is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be." Hans Rosling, February 2017.

Care and Maintenance of Textile Products Including Apparel and Protective Clothing -

Rajkishore Nayak 2018-03-08

Proper care and maintenance of textile materials

is essential in prolonging their durability and appearance. This book describes methods of care and maintenance for textile products, focusing on types of laundering and dry-cleaning processes, chemicals, and equipment, while considering the environmental impacts of these procedures and green cleaning approaches. It details care labelling of garments, including electronic care labelling and instructions for different specialty textiles. Factors such as pilling, abrasion, snagging, color fading, and dimensional change are discussed. This book also emphasizes care and maintenance of textiles used for protection from fire, bullets, cold weather, and chemicals.

The Weapon Wizards - Yaakov Katz

2017-01-31

"A lively account of Israel's evolving military prowess...if The Weapon Wizards were a novel, it would be one written by Horatio Alger; if it were a biblical allegory, it would be the story of David and Goliath." —The New York Times Book Review From drones to satellites, missile defense systems to cyber warfare, Israel is leading the world when it comes to new technology being deployed on the modern

battlefield. The Weapon Wizards shows how this tiny nation of 8 million learned to adapt to the changes in warfare and in the defense industry and become the new prototype of a 21st century superpower, not in size, but rather in innovation and efficiency—and as a result of its long war experience. Sitting on the front lines of how wars are fought in the 21st century, Israel has developed in its arms trade new weapons and retrofitted old ones so they remain effective, relevant, and deadly on a constantly-changing battlefield. While other countries begin to prepare for these challenges, they are looking to Israel—and specifically its weapons—for guidance. Israel is, in effect, a laboratory for the rest of the world. How did Israel do it? And what are the military and geopolitical implications of these developments? These are some of the key questions Yaakov Katz and Amir Bohbot address. Drawing on a vast amount of research, and unparalleled access to the Israeli defense establishment, this book is a report directly from

the front lines.

Because I'm Suitable - Allison P. Uribe
2012-02-23

In the beginning when God created the heavens and the earth, he saw it all to be good except for one thing: man was alone. It was then that God created a suitable helper, a wife. Man would no longer be alone but the two would become one flesh. Being a wife is a journey of its own and being the wife of a law enforcement officer is a unique journey. As a wife on duty, whether it be through law enforcement, fire, or military, we share the protection of our spouse with our cities, counties, and country. Take a journey with a wife whose marriage had an uncertain future

and see how God transformed her life once she surrendered it all. It was realizing that her role as a wife was prewritten and ordained by her maker which made her put her faith into action. With marriages falling apart every day in the law enforcement community, there is no better time than now to fight for our marriages with God by our side. Who better to seek council and guidance from than the one who created marriage in the first place?

Engineering Mechanics - Benson H. Tongue
2020-09-29

Dynamics can be a major frustration for those students who don't relate to the logic behind the material -- and this includes many of them! Engineering Mechanics: Dynamics meets their needs by combining rigor with user friendliness. The presentation in this text is very personalized, giving students the sense that they are having a one-on-one discussion with the authors. This minimizes the air of mystery that a more austere presentation can engender, and

aids immensely in the students' ability to retain and apply the material. The authors do not skimp on rigor but at the same time work tirelessly to make the material accessible and, as far as possible, fun to learn.

Empathy - Magdalen Powers 2017-09-01

Humans relate to one another in many ways, but no connections are as deep as those built around shared experiences. Empathy invites us to feel others' feelings, to see the world how they see it. The world seems to need empathy now more than ever. This collection of essays, historical documents, stories, and poetry explores the American tendency to decide who is "us" and who is "them" in terms of race, sexuality, immigration status, ability, and other categories of difference. The collection offers readings of varying levels of difficulty and from a wide range of perspectives. This book features not just examples of empathy in practice—which shows readers what it looks like and invites participation in empathy—but also examples where empathy was needed in history and none was found. Selections include works by Marcus Aurelius, Kate Chopin, Frederick Douglass, Ralph Waldo Emerson, Lawson Fusao Inada, Harriet Ann Jacobs, Emma Lazarus, Barack Obama, Franklin Delano Roosevelt, Margaret

Sanger, Sonia Sotomayor, Sojourner Truth, and many more.

Mindfulness For Warriors - Kim Colegrove

2020-03-17

#1 New Release in Military Families – Coping with the Stress of First Responder Life
A traumatic way of life: First responders have the incredibly difficult job of running toward danger while the rest of us run away. No training can prepare them for what they will see and endure. Kim Colegrove understands what it's like to watch someone go through that. After 30 years in law enforcement, her husband took his own life. This agonizing experience opened Kim's eyes to the desperate need for an effective form of stress-relief and support for first responders. The power of meditation: No matter our profession, taking care of our mental health

needs to be a priority. For first responders like cops and EMTs, ensuring that their heads are in a healthy place is crucial because each day can bring them face-to-face with another trauma. With 40 years of experience, Kim Colegrove is here to share with readers that there is a viable and practical resource for first responders found in meditation. A source of hope: In 2017, Kim founded The PauseFirst Project, Mindfulness for First Responders. Kim offers the PauseFirst block of training to organizations across the country. She teaches techniques that help reduce stress, regulate emotion, and improve overall health and well-being. Colegrove's work to bring awareness is a tribute to both her husband and the countless other first responders who struggle with the realities of their jobs. Readers of Kim Colegrove's *Mindfulness for Warriors* will find... • Evidence-based practices to help first responders and their families deal with stress • Interviews with first responders who share their stories of overcoming, surviving,

and thriving • Colegrove's own raw and intimate story of her husband's troubles and how she continues each day fighting in his memory Readers who have looked for encouragement messages and aid in books like Bulletproof Spirit, Bullets in the Washing Machine, and I Love a Cop (Third Edition) will find a further source of healing in Mindfulness for Warriors.

Crime Scene Investigation - National Institute of Justice (U.S.). Technical Working Group on Crime Scene Investigation 2000

This is a guide to recommended practices for crime scene investigation. The guide is presented in five major sections, with sub-sections as noted: (1) Arriving at the Scene: Initial Response/Prioritization of Efforts (receipt of information, safety procedures, emergency care, secure and control persons at the scene, boundaries, turn over control of the scene and brief investigator/s in charge, document actions and observations); (2) Preliminary Documentation and Evaluation of the Scene

(scene assessment, "walk-through" and initial documentation); (3) Processing the Scene (team composition, contamination control, documentation and prioritize, collect, preserve, inventory, package, transport, and submit evidence); (4) Completing and Recording the Crime Scene Investigation (establish debriefing team, perform final survey, document the scene); and (5) Crime Scene Equipment (initial responding officers, investigator/evidence technician, evidence collection kits).

Steaming as Before - Richard V. Bovbjerg 2004 Thrust into the position of captain by the necessity of war, Richard Bovbjerg, a young biologist, chronicles a fascinating look at the lives of men aboard a minesweeper, the YMS 353. Bovbjerg guides his crew from Miami, Florida through the South Pacific to the Philippines in the closing year of World War II. From their small wooden hulled boat, Bovbjerg and his crew experience the boredom of endless days at sea punctuated by kamikaze attacks,

meetings with a Stone Age tribe in the South Pacific, shore leaves in pre-revolutionary Cuba, the creativity necessary to survive Navy bureaucracy, the terror of tropical typhoons among uncharted reefs, the endless terror of mines, and finally, miraculously, their survival without casualty. An intimate, gritty testimony to be shared by the captains and sailors of the Pacific minesweepers with their children and with all those interested in the daily realities of war, *Steaming as Before* provides a compelling account of war from life at the base in Miami to the liberation of Palau.

Emotional Survival for Law Enforcement - Kevin M. Gilmartin 2002-01-01
