*Who Turned Out the Lights?* - Scott Bittle 2009-10-27

From the editors of PublicAgenda.org, an entertaining, irreverent, and absolutely essential nonpartisan guide to the energy crisis Energy: It's a problem that never goes away (despite our best efforts as a nation to ignore it). Why has there been so much talk and so little action? In *Who Turned Out the Lights?* Scott Bittle and Jean Johnson offer a much-needed reality check: The "Drill, Baby, Drill" versus "Every Day Is Earth Day" battle is not solving our problems, and the finger-pointing is just holding us up. Sorting through the political posturing and confusing techno-speak, they provide a fair-minded, "let's skip the jargon" explanation of the choices we face. And chapters such as "It's All Right Now (In Fact, It's a Gas)" prove that, while the problem is serious, getting a grip on it doesn't have to be. In the end, the authors present options from the right, left, and center but take just one position: The country must change the way it gets and uses energy, and the first step is to understand the choices.

Plays from New River 1 - M.Z. Ribalow 2014-01-10

This is the first volume of *Plays from New River*, showcasing a place where gifted writers of plays and screenplays are paid and nurtured to write whatever they most want to write. These three very different plays are among the results. Wendy Hammond's *Absence* considers the American mindset of the Cold War by focusing on the intensely human story of a Mormon couple suffering the damage wreaked upon those involved in intelligence during that era. *American Girls* by Hilary Bettis shows us the hilariously terrifying results when teenage girls grow up in a culture that simultaneously reveres Christian ideals and celebrity. And M.Z. Ribalow's *Masterpiece*, by considering forged paintings in World War II Europe, raises timeless questions about the nature of creativity, the relation of reality to illusion, and how we judge art. Each play has a distinctive voice, subject and style; all were developed in the unique setting of New River Dramatists in Ashe County, North Carolina.

Examining his thirty years of pastoral ministry, Horner mines seven key challenges that pastors must face well in order to restore and maintain a healthy balance. Church leaders and those who love them will find this book a practical and biblical guide that reinvigorates their calling.

**The Guiltless** - Hermann Broch 2000

"Murder, lust, shame, hypocrisy, and suicide are at the center of *The Guiltless*, Hermann Broch's postwar novel about the disintegration of European society in the three decades preceding the Second World War. Broch's characters - an apathetic man who can barely remember his own name; a high-school teacher and his lover who return from the brink of a suicide pact to carry on a dishonest relationship; Zerline, a lady's maid who enslaves her mistresses, prostitutes the young country girl Melitta, and metes out her own justice against the "empty wickedness" of her betters - are trapped in their indifference, prisoners of a sort of "wakeful somnolence." These men and women may mention the "imbecile Hitler," yet they prefer a nap or sexual encounter to any social action. Broch thought the kind of ethical perversity and political apathy exhibited by his characters paved the way for Nazism. He believed in the purifying power of writing and hoped that by revealing Germany's underlying guilt he could purge indifference from his own and future generations. In *The Guiltless*, Broch captures how apathy and ennui - very human failings - evolve into something dehumanizing and dangerous." --Book Jacket.

The coach's guide to beating the Freshman Fifteen, Sophomore Slump, crippling anxiety, and your worst hangover! Learn to take care of yourself, and de-stress throughout your undergrad years and beyond. Every fall, millions of young adults crash into college fired up for the best four years of their lives, ready to experience campus life, take classes about things they're interested in, and meet people from all over the world. Most students, however, are better prepared to pick their major or talk to strangers than they are to take care of themselves in the college setting. College students today are more depressed, anxious, and stressed than previous waves of students; they're also more sedentary, not really exercising, and living in a meal-plan limbo supplemented with ramen and coffee. In this comprehensive field guide, high school coaches Jill and Dave Henry break down the facts and deliver doable, no-BS strategies for managing physical and mental health on campus. In addition to helpful, interactive graphics, the coaches share their relatable true stories—ranging from the ridiculous to the serious—to discuss the five biggest health obstacles students face in college. On top of research-backed tips, *The Greatest College Health Guide You Never Knew You Needed* also features raw and personal advice from current students on college campuses across the country. While simply figuring out what to eat and how to exercise can be completely overwhelming, this guide goes beyond a basic crash course on how to be healthy. Jill and Dave cover everything from crucial time-management skills to the complex sensitivity of self-doubt, sexual assault, and depression with humor, humility, and heart. *The Greatest College Health Guide You Never Knew You Needed* is a complete road map for how to take care of your mind and body that will not only set students up to crush the next four years, but will also provide a foundation they can carry with them for the rest of their lives.

*The Ultimate Guide to College Safety* - Peter J. Canavan 2018-08-29

New college students are led to believe that sharing personal information and freely expressing their opinions on social media is expected and their right to free speech. What they fail to understand is that any information they reveal may be used to steal their identity, prevent them from being hired and possibly even get them hurt or killed. It is well known that college is a time for learning, experiencing and growing as a person...but it is little understood that it is also the point in time when students form relationships, political beliefs, attitudes, and habits that will shape them for the rest of their lives. The influence of their friends, teachers and the social and political climate on campus are huge factors in their development - both good and bad. Understanding and learning can help parents assist their sons and daughters avoid future pitfalls and grow up to be successful, productive members of society. There is nothing more important than your personal safety and the safety of your family. Safety has become the highest priority for students, parents, educators and administrators. However, the educational tools and reference guides that contain this essential information for them is lacking since most safety material focuses on the school itself and public safety professionals, not the individual. Today's college students face threats to their personal safety that generations before did not have to deal with. New problems exist in both the digital world and the physical world, and can be harmful or even deadly. Thinking a problem won't happen to you will not make it any less likely. The solution is to be aware of what threats exist, learn how to protect yourself, and know what steps to take should a problem arise to you or around you. You can give your child the most comprehensive resource ever compiled about how to stay safe in both the physical world and digital world. This will help ensure that students are made aware of the various threats to their personal safety that exist both online and offline so they will ultimately be safer during their college years and beyond. The author has worked as an information technology consultant since 1995, a self-defense instructor for over 20 years, and is a former university public safety professional. He is fully qualified to educate students and others based on decades of knowledge that has been distilled into this comprehensive book. *Creating Space for Democracy* - Timothy J. Shaffer 2019-10-16

Published in Association with 

We live in divisive and polarizing times, often remaining in comfortable social bubbles and experiencing few genuine interactions with people who are different or with whom we disagree. Stepping out and turning to one another is difficult but necessary. For our democracy to thrive at a time when we face wicked problems that involve tough trade-offs it is vital that all citizens participate fully in the process. We need to learn to listen, think, and act with others to solve public problems. This collaborative task begins with creating space for democracy. This book provides a guide for doing so on campus through deliberation and dialogue.

At the most basic level, this book describes collaborative and relational work to engage with others and co-create meaning. Specifically, dialogue and deliberation are processes in which a diverse group of people moves toward making a collective decision on a difficult public issue. This primer offers a blueprint for achieving the civic mission of higher education by incorporating dialogue and deliberation into learning at colleges and universities. It opens by providing a conceptual framework, with leading voices in the dialogue and deliberation field providing insights on issues pertinent to college campuses, from free speech and academic freedom to neutrality and the role of deliberation in civic engagement. Subsequent sections describe a diverse range of methods and approaches used by several organizations that pioneered and sustained deliberative practices; outline some of the many ways in which educators and institutions are using dialogue and deliberation in curricular, co-curricular, and community spaces, including venues such as student centers, academic libraries, and residence halls. All of the chapters, including a Resource Section, provide readers with a starting point for conceptualizing and implementing their own deliberation and dialogue initiatives. This book, intended for all educators who are concerned about democracy, imparts the power and impact of public talk, offers the insights and experiences of leading practitioners, and provides the grounding to adopt or adapt the models in their own settings to create educative spaces and experiences that are humanizing, authentic, and productive. It is an important resource for campus leaders, student affairs practitioners, librarians, and centers of institutional diversity, community engagement, teaching excellence and service-learning, as well as faculty, particularly those in the fields of communication studies, education, and political science. Soon Baylor is dream-walking through a terrifying reality: two teenagers, Archie and Helena, who are stranded at sea. The kids have been missing for over a week and Baylor is the only person who can reach them. The only problem is, Baylor has no way of telling where Archie and Helena are outside of his dream world. And time is running out. Not to mention that a group of wandering demon spirits, the Lost Souls, are after Baylor, too. "You did nothing." Christine Steinmeyer thought the anonymous suicide note she found in her mailbox on Christmas Eve wasn't meant for her. But the man calling in to her radio show seems convinced otherwise. "You let her die. . . ." That's only the beginning. Bit by bit, her life is turned upside down. But who among her friends and family hates her enough to want to destroy her? And why? It's as if someone has taken over her life, and everything holding it together starts to crumble. Soon all that is left is an unimaginable nightmare. Martin Servaz is on leave in a clinic for depressed cops, haunted by his childhood sweetheart Marianne's kidnapping by his nemesis, the psychopath Julian Hirtmann. One day, he receives a key card to a hotel room in the mail—the room where an artist committed suicide a year earlier. Someone wants him to get back to work, which he's more than ready to do, despite his mandatory sick leave. Servaz soon uncovers evidence of a truly terrifying crime. Could someone really be cruelly, consciously hounding women to death? What if the people closest to us are not what they seem? What happens when someone takes control of your life and your relationships? And what is hiding in the darkness? In Bernard Minier's Don't Turn Out the Lights, you won't see who's coming after you.
