Shifting Gears at 50 - Philip Buonpastore 2012-01-24

From the publishers of Motorcycle Consumer News, *Shifting Gears at 50* is a one-of-a-kind motorcycling manual for returning and late-entry riders, essentially anyone 40 years old and up who's looking to hit the road on two wheels. Author Philip Buonpastore, a motorcycle journalist and retired US Air Force photographer, helps readers gear up to get back on a motorcycle (or get on one for the first time). In Part 1, "Becoming a Motorcyclist," Buonpastore discusses the basics of buying the right bike, gear, and equipment and getting the bike up to speed. The book continues with a good overview of learning to ride, the importance of taking a road course, venturing out on the first ride, and extending rides to long-distance jaunts. Throughout Part 1 are sidebars by riding- safety instructor and expert Walt Fulton, offering sound advice on safety precautions and execution for every leg of the new and returning rider's journey. The author emphasizes what older riders should be aware of and which factors can affect their rides. Adding lots of great firsthand advice are humorous and helpful stories collected by the author and related by returning riders at various ages, from their late 30s to 60s. In Part 2, Buonpastore shares five of his favorite travelogues covering his long-distance tours around the US, from the American South to the west coasts. This section is illustrated by over 100 of the author's breathtaking photographs of the various locations he toured on his bike. The foreword to the book is provided by best-selling motorcycle author David Hough (author of I-5 Press's *Proficient Motorcycling and Mastering the Ride*). Hough writes, "If you're getting into today's motorcycling at an age your doctor would describe as 'middle aged' or 'senior,' do you yourself a clever favor and read Phil's book."

Race Tech's Motorcycle Suspension Bible - Paul Thede 2010-06-19

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

Mini-bike Service Manual - Intertec Publishing Corporation. Technical Publications Division 1972

Face - Matt Kern 2003-07-08

From the beginning of the seventh to the end of the eighth grade Matt went from being an A student to flunking out. While repeating the eighth grade, he was the MVP in three sports and was stealing cars on weekends. One night in April, 1988, he and two friends went out to steal a car. One of the friends shot and killed the driver. Trying to avoid a mandatory 25 years in prison, Matt accepted a plea of 60 years because he hoped he could reduce time served from 30 years to 12. Most young males are victimized by the dominant inmates in prison. At DeSoto Correctional Institute he was the youngest male among 1,100 men.

Unbeknownst to his parents, Matt thrived in prison. He made and sold wine and loansharked, among other things. With his profits he bank-rolled a gambling operation. At one point he was sending money home to his brother. He paid one inmate to iron his clothes and another one to make his bed. But in his 6th year of incarceration he hit a man with a pipe in the middle of the night. He was sent to Close Management or "Solitary," for 13 months. For the first time he had experienced guilt for something he had done. It was the beginning of a spiritual awakening. The details of the crime and of his life leading up to it, the details of Matt's "business interests" while in prison, a love affair with an attractive female guard, the details of the fight mentioned above and the providential way in which Matt got clemency from Governor Chiles four months before he died of a heart attack, is all part of a riveting story.

When they agreed it would be prudent to deposit dirty money into bank accounts they had opened in the Cayman Islands and Switzerland that was the beginning of the end.
