Notebook Connections - Aimee Buckner 2009

The question I grappled with was how to move students from “couch-potato” readers who can answer basic questions with one word-to readers who think while reading-to readers who think beyond their reading.-Aimee Buckner In Notebook Know-How, Aimee Buckner demonstrated the power of notebooks to spark and capture students' ideas in the writing workshop. In Notebook Connections, she turns her focus to the reading workshop, showing how to transform those “couch-potato” readers into deep thinkers. Buckner's fourth-grade students use reader's notebooks as a place to document their thinking and growth, to support their thinking for group discussions, and to explore their own ideas about a text without every entry being judged as evidence of their reading progress. Buckner describes her model as flexible enough for students to respond in a variety of ways yet structured enough to provide explicit instruction. Notebook Connections leads teachers through the process of launching, developing, and fine-tuning a reader's notebook program. Teacher-guided lessons in every chapter help students create anchor texts for their notebooks using various comprehension and writing strategies. As students become more proficient, they grow more independent in their thinking and responses and will begin to select the strategies that work best for them. In the process, the notebook becomes a bridge that helps students make connections between ideas, texts, strategies, and their work as readers and writers. Notebook Connections, filled with lesson ideas and assessment tips, provides a comprehensive model for making reader's notebooks the centerpiece of your reading workshop.

Lord of the Flies - William Golding 2003-12-16

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

Mentor Texts - Lynne R. Dorfman 2017

In their first edition of Mentor Texts, authors Lynne Dorfman and Rose Cappelli helped teachers across the country make the most of high-quality children's literature in their writing instruction. In Mentor Texts: Teaching Writing Through Children's Literature, K-6, 2nd Edition the authors continue to show teachers how to help students become confident, accomplished writers by using literature as their foundation. The second edition includes brand-new "Your Turn Lessons," built around the gradual release of responsibility model, offering suggestions for demonstrations and shared or guided writing. Reflection is emphasized as a necessary component to understanding why mentor authors chose certain strategies, literary devices, sentence structures, and words. Dorfman and Cappelli offer new children's book titles in each chapter and in a carefully curated and annotated Treasure Chest. At the

end of each chapter a "Think About It--Talk About It--Write About It" section invites reflection and conversation with colleagues. The book is organized around the characteristics of good writing--focus, content, organization, style, and conventions. The authors write in a friendly and conversational style, employing numerous anecdotes to help teachers visualize the process, and offer strategies that can be immediately implemented in the classroom. This practical resource demonstrates the power of learning to read like writers.

Nonfiction Notebooks - Aimee Buckner 2013

"Explains how writer's notebooks can help students improve their nonfiction writing--reports, articles, memoirs, essays, and so forth--which has taken on even greater importance because of the emphasis the Common Core State Standards place on informative/explanatory writing. As Aimee explains, the prewriting work a student does is particularly important when writing informational pieces. Writer's notebooks help students capture their thoughts, develop ideas, explore mentor texts, refine a research strategy, and play with multiple outcomes--all of which lead to stronger concepts and better first drafts. Greater emphasis on the front end of the writing process also saves time and energy at the revision and editing stages. From exploring topics to gathering information to assessment, *Nonfiction Notebooks* takes teachers step-by-step through the process of how best to use notebooks for informational writing. Grades 3-8."--Back cover.
