## Louise Bourgeois - Deborah Wye 2017

The first publication to fully survey Louise Bourgeois's printmaking, a major component of her artistic practice. Louise Bourgeois: An Unfolding Portrait explores the prints, books and creative process of the celebrated sculptor Louise Bourgeois whose printed oeuvre, while lesser known than other aspects of her work, is vast in scope and comprises some 1,400 printed compositions. Over the course of her career,

Bourgeois constantly revisited the themes and motifs of her art - all of which emerged from troubling emotions she struggled with for a lifetime. This investigation reveals the creative process underlying her artistic practice through evolving states for print compositions, as well as through the juxtaposition of works in different mediums and from different periods of her long career. Published in conjunction with an exhibition at The Museum of Modern Art, the book features over 250 prints organized thematically and placed within the context of the artist's sculpture, drawings and paintings. The book also sheds light on the collaborative relationships between Bourgeois and her printmaking associates who often came to her home studio to work with her there - sometimes on a daily basis - pulling trial proofs from printing presses she kept in her basement. Interviews with Bourgeois's primary assistant, with whom she worked for decades, as well as with a printer and a publisher, each of whom helped foster her creative engagement with the medium, provide insight into her working process.

Learn something simple

that works! Create your own STYLE of drawing, like your handwriting with a breakthrough technique that teaches you naturally! This book will give you confidence in your drawing. See improved results in DAYS! This 10 Day Portrait Drawing Crash Course is unlike any other you have ever seen, read, watched or class you have attended. Although this book is small in volume, inside you will find a wealth of experience, tips and knowledge gained over more than 70 years. It will truly take you step by step on a 10 day unique journey towards achieving your very own style and signature in portraiture drawing. All this will be accomplished by you devoting your time, effort and practice for the next 10 days, without any aids ( or crutches) of using camera projection, the pre drawing of grids, \*tracing or measuring. I could have called this book 'Scribble Your Style Into Portraits', because I want you to keep all your drawings and exercises very 'loose'. Do not worry about making nice clean marks on the paper, really scribble every line and mark you make. No other person can scribble or write like you and this ultimately should be your goal to establishing your own 'style' Along the way you will be introduced to various tips and techniques, some old, some new, but all tried, tested and proven. These methods will guide you towards progressing your skill and your own style, like your written signature. Have faith, practice well and before this short course is ended, you will SEE your efforts rewarded.
