**Automotive FDI in Emerging Europe** - A. J. Jacobs 2017-06-19

This book examines the dramatic increase in automotive assembly plants in the former Socialist Central European (CE) nations of Czechia, East Germany, Hungary, Poland, and Slovakia from 1989 onwards. Enticed by relatively lower-wage labour and significant government incentives, the world's largest automakers have launched more than 20 passenger car assembly complexes in CE nations, with production accelerating dramatically since 2001. As a result, the annual passenger car production in Western Europe declined by more than 20% between 2001 and 2015, and alternatively in the CEE it increased by nearly 170% during this period. Drawing on case studies of 25 current and former foreign-run assembly plants, the author presents a rare historical account of automotive foreign assembly plants in the CE following this

dramatic geographic shift. This book will expand the knowledge of policy-makers in Europe in relation to their pursuits of FDI and will be of great interest to scholars and students of business, economic history, political science, and development.

Lemon-Aid Used Cars and Trucks 2011-2012 - Phil Edmonston 2011-04-25

As Toyota skids into an ocean of problems and uncertainty continues in the U.S. automotive industry, Lemon-Aid Used Cars and Trucks 20112012 shows buyers how to pick the cheapest and most reliable vehicles from the past 30 years. Lemon-Aid guides are unlike any other car and truck books on the market. Phil Edmonston, Canada's automotive Dr. Phil for 40 years, pulls no punches. Like five books in one, Lemon-Aid Used Cars and Trucks is an expos of car scams and gas consumption lies; a do-it-yourself service manual; an independent guide that covers beaters, lemons, and collectibles; an archive of secret service bulletins granting free repairs; and a legal primer that even lawyers cant beat! Phil delivers the goods on free fixes for Chrysler, Ford, and GM engine, transmission, brake, and paint defects; lets you know about Corvette and Mustang tops that fly off; gives the

lowdown on Honda, Hyundai, and Toyota engines and transmissions; and provides the latest information on computer module glitches.

### **The Korean Automotive Industry, Volume 1** - A. J. Jacobs 2022

In 1962, South Korea assembled just 1,100 new automobiles. By 1996, this total had soared to 2,812,714. What explains this remarkable growth? The answer is complex, and involves a combination of a supportive State, timely technology alliances, a skilled but historically low-paid workforce, aggressive pricing, savvy entrepreneurs, and fortuitous circumstances. Despite this amazing ascent, comparatively little has been written about the Korean auto industry in English. In the first of a two-volume set, this 11-chapter book seeks to help fill this void by providing in-depth examinations of all six of Korea's automakers from their beginnings through 1996. Uniquely written from the perspective of industry analysts at the time (without knowledge of the Asian Fiscal Crisis), the book should prove informative to practitioners, scholars, and students interested in automotive history, international political economy, Asian studies, and more. A.J. Jacobs is Professor of Sociology at East Carolina University, USA.

#### American Multinationals and Japan - Mark Mason 2020-03-23

"This pioneering study of United States direct investment in Japan will interest academic specialists, business managers, and government policymakers in America, Japan, and elsewhere. Drawing on rich historical materials from both sides of the Pacific, including corporate records and government documents never before made public, Mason examines the development of both Japanese policy towards foreign investment and the strategic responses of American corporations. This history is related in part through original case studies of Coca-Cola, Dow Chemical, Ford, General Motors, International

Business Machines, Motorola, Otis Elevator, Texas Instruments, Western Electric, and Victor Talking Machine. The book seeks to explain why a little foreign direct investment has entered modern Japan. In contrast to the widely held view that emphasizes an alleged lack of effort on the part of foreign corporations, this study finds that Japanese restrictions merit greater attention. Many analysts of the modern Japanese political economy identify the Japanese government as the key actor in initiating such restrictions. Mason finds that the influence of Japanese business has often proved more potent than these analysts suggest. This book offers fresh insights into both the operation of the modern Japanese political economy and of its relations with the world economy."

#### **Which Way Next** - Richard Meredith 2004-02

Another true-life travel adventure from the Balding Backpacker; one of the epic tales of modern motoring history. In the late summer of 2003, middle-aged adventurer Richard Meredith and a young student companion borrowed a small family hatchback from General Motors and drove it halfway round the world. GM were hoping to publicise the bankrupt Daewoo car business they bought in South Korea after founder Kim Woo Choong had disappeared with \$2 billion of company cash. But they got more than they bargained for - and so did the intrepid duo, defying sandstorms, rioters and gun-totting rebels as they meandered across Europe, battled through the ranks of Taliban and al-Qaeda forces in Afghanistan, and juddered across India into Laos and Vietnam. Contains 16 pages of colour photos. -- more at [www.mercurybooks.co.uk](http://www.mercurybooks.co.uk)

**Atlas of Unknowns** - Tania James 2009-04-21  
An utterly irresistible first novel: The story of two sisters, the yearning to disappear into another country, and the powerful desire to return to the known world. Linno is a gifted artist, despite a childhood accident that has left her badly maimed, and Anju is one of Kerala's most promising students. Both girls dream of coming to the United States, but it is Anju who wins a scholarship to a prestigious school in New York. She seizes it, even though it means lying and betraying her sister. When her lie is discovered, Anju disappears. Back in Kerala, Linno is undergoing a transformation of her own. But when she learns of Anju's disappearance, Linno strikes out farther still, with a scheme to procure a visa so that she can come to America to look for her sister and save them both.

What is Valentine's Day? Antique Valentine's card  
Antique Valentine's card  
Valentine's Day (or Saint Valentine's Day) is observed on February 14 each year. Today Valentine's Day is celebrated in many countries around the world, mostly in the West, although it remains a working day in all of them. The original "St. Valentine" was just a liturgical celebration of one or more early Christian saint named Valentinus. All the modern romantic connotations were added several centuries later by poets. You can use this Blank Lined Journals (110 Pages - 6 x 9 Inch) to jot down your thoughts or class notes, write your work at home, or present it as a gift to someone you love.

### **Lemon-Aid Used Cars and Trucks**

**2012-2013** - Phil Edmonston 2012-05-19

Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.

**Decompression** - Juli Zeh 2015-06-23

In this riveting tale we meet two couples caught in a web of conflicting passions, Diving instructor Sven Fiedler and his girlfriend, Antje, who live and work on the Spanish island of Lanzarote. When a tourist couple—Jola, a soap opera actress, and Theo, a stalled novelist—arrive for an intensive two-week diving experience, Sven is captivated by Jola's beauty and evident wealth. Theo suspects that Sven and Jola have begun an affair, but oddly, he seems to encourage them. Antje looks on, increasingly wary of these new clients. Cycling through different points of view, we are constantly kept guessing about who knows what—and who is telling the truth. A brutal game of temptation and manipulation unfolds, pointing toward a violent end—but a quiet one, underwater, beneath the waves.
