Major and Mrs Holt's Battlefield Guide to Operation Market Garden - Tonie Holt 2013-07-18

Like the other books in the Holts' acclaimed Battlefield Guide Series (see inside front cover for details) this is much more than just a guidebook. It charts in fascinating detail what happened at each recommended stop and brings alive, with cameos and personal recollections, the dramatic events of September 1944. It is the very first detailed guide to chart the entire MARKET-GARDEN Corridor - from Leopoldsborg in Belgium and over the important bridges at the Scheldt-Maas Canal, the Wilhelmina Canal, the Zuid Willemsvaart Canal, the Maas and the Waal to the Bridge at Arnhem over the Lower Rhine - the 'Bridge Too Far'. There are stories of gallantry, despair, humour, fear and dogged persistence - here was a hidden execution ground and cemetery in Belgium - here Pfc Joe Mann threw himself onto a grenade to save his buddies - here the 504th PIR made the daring crossing over the Waal - here was Diogenes, the Germans' menacing secret bunker - here twin brothers of the British Airborne were killed together - here Colonel Johnny Frost clung on for 4 desperate days. This third edition includes: An UPDATE Section with GPS locations, new/changed Memorials, Museums and Tourist Information; An Approach Route and five recommended timed Itineraries; Sketch maps in all the Itineraries; Memorials to the liberating Allies and the suffering Civilians; Museums, sites of DZs and LZs; Allied and German Cemeteries and Information on their War Graves Associations; Historical background to and summary of the Operation; Holland after the battles to the present day; Information on Veterans' and Commemorative Associations and Events; Useful tourist information; Full colour illustrations throughout

Building a Dedicated GSM GPS Module Tracking System for Fleet Management - Franjeh El Khoury 2018-01-31

This book shows how to build a "INFelecPHY GPS Unit" (IEP-GPS) tracking system for fleet management that is based on 3G and GPRS modules. This model should provide reliability since it deals with several protocols: 1) HTTP and HTTPS to navigate, download and upload in real time the information to a web server, 2) FTTP and FTTPS to handle in a non-real time the files to the web application, and 3) SMTP and POP3 to send and receive email directly from the unit in case of any alert. Similar to a mobile device, but without screen for display, it is multifunctional because it links to a GPRS module, a camera, a speaker, headphone, a keypad and screen.

Timecode A User's Guide - J. Ratcliff 1999-04-23

The Navstar Global Positioning System - Tom Logsdon 2012-12-06

Global Positioning System - Bernhard Hofmann-Wellenhof 2012-12-06

This book is dedicated to Dr. Benjamin William Remondi for many reasons. The project of writing a Global Positioning System (GPS) book was conceived in April 1988 at a GPS meeting in Darmstadt, Germany. Dr. Remondi discussed with me the need for an additional GPS textbook and suggested a possible joint effort. In 1989, I was willing to commit myself to such a project. Unfortunately, the timing was less than ideal for Dr. Remondi. Therefore, I decided to start the project with other coauthors. Dr. Remondi agreed and indicated his willingness to be a reviewer. I selected Dr. Herbert Lichtenegger, my colleague from the Technical University Graz, Austria, and Dr. James Collins from Rockville, Maryland, U.S.A. In my opinion,

the knowledge of the three authors should cover the wide spectrum of GPS. Dr. Lichtenegger is a geodesist with broad experience in both theory and practice. He has specialized his research to geodetic astronomy including orbital theory and geodynamical phenomena. Since 1986, Dr. Lichtenegger's main interest is dedicated to GPS. Dr. Collins retired from the U.S. National Geodetic Survey in 1980, where he was the Deputy Director. For the past ten years, he has been deeply involved in using GPS technology with an emphasis on surveying. Dr. Collins was the founder and president of Geo/Hydro Inc. My own background is theoretically oriented. My first chief, Prof. Dr. Peter Meissl, was an excellent theoretician; and my former chief, Prof. Dr. mult. Helmut Moritz, fortunately, still is.
