Sam's memoir takes in the whole story, from being kicked out of ballet lessons as a child but being accepted on the boys' sports teams, to working as a firefighter in West Yorkshire for ten years, tackling dangerous and adrenaline-fueled situations on a daily basis, and to taking up CrossFit at the comparatively ancient age of 27. Sam tells of what it took to become champion a mere three years later, and after a year out with a broken patella. Despite the numerous setbacks and debilitating injuries that have plagued her in the years that followed, when most other athletes would have thrown in the towel, Sam has fought, and continues to fight, to be the very best that she can be. The Coddling of the American Mind - Greg Lukianoff 2019-08-20

New York Times Bestseller • Finalist for the 2018 National Book Critics Circle Award in Nonfiction • A New York Times Notable Book • Bloomberg Best Book of 2018 "Their distinctive contribution to the higher-education debate is to meet safetyism on its own, psychological turf . . . Lukianoff and Haidt tell us that safetyism undermines the freedom of inquiry and speech that are indispensable to universities."

—Jonathan Marks, Commentary "The remedies the book outlines should be considered on college campuses, among parents of current and future students, and by anyone longing for a more sane society." —Pittsburgh Post-Gazette  
Something has been going wrong on many college campuses in the last few years. Speakers are shouted down. Students and professors say they are walking on eggshells and are afraid to speak honestly. Rates of anxiety, depression, and suicide are rising—on campus as well as nationally. How did this happen? First Amendment expert Greg Lukianoff and social psychologist Jonathan Haidt show how the new problems on campus have their origins in three terrible ideas that have become increasingly woven into American childhood and education: What doesn't kill you makes you weaker; always trust your feelings; and life is a battle between good people and evil people. These three Great Untruths contradict basic psychological principles about well-being and ancient wisdom from many cultures. Embracing these untruths—and the resulting culture of safetyism—interferes with young people's social, emotional, and intellectual development. It makes it harder for them to become autonomous adults who are able to navigate the bumpy road of life. Lukianoff and Haidt investigate the many social trends that have intersected to promote the spread of these untruths. They explore changes in childhood such as the rise of fearful parenting, the decline of unsupervised, child-

directed play, and the new world of social media that has engulfed teenagers in the last decade. They examine changes on campus, including the corporatization of universities and the emergence of new ideas about identity and justice. They situate the conflicts on campus within the context of America's rapidly rising political polarization and dysfunction. This is a book for anyone who is confused by what is happening on college campuses today, or has children, or is concerned about the growing inability of Americans to live, work, and cooperate across party lines.

Norwich - Karen Crouse 2018-01-23

The extraordinary story of the small Vermont town that has likely produced more Olympians per capita than any other place in the country, Norwich gives "parents of young athletes a great gift—a glimpse at another way to raise accomplished and joyous competitors" (The Washington Post). In Norwich, Vermont—a charming town of organic farms and clapboard colonial buildings—a culture has taken root that's the opposite of the hypercompetitive schoolyard of today's tiger moms and eagle dads. In Norwich, kids aren't cut from teams. They don't specialize in a single sport, and they even root for their rivals. What's more, their hands-off parents encourage them to simply enjoy themselves. Yet this village of roughly three thousand residents has won three Olympic medals and sent an athlete to almost every Winter Olympics for the past thirty years. Now, New York Times reporter and "gifted storyteller" (The Wall Street Journal) Karen Crouse spills Norwich's secret to raising not just better athletes than the rest of America but happier, healthier kids. And while these "counterintuitive" (Amy Chua, bestselling author of *Battle Hymn of the Tiger Mother*) lessons were honed in the New England snow, parents across the country will find that "Crouse's message applies beyond a particular town or state" (The Wall Street Journal). If you're looking for answers about how to raise joyful, resilient

kids, let Norwich take you to a place that has figured it out.
