Sagamore Hill - Bill Bleyer 2016-10-03

No house better reflects the personality and interests of its owner than Theodore Roosevelt's cherished Sagamore Hill. After Roosevelt returned to Oyster Bay following the death of both his beloved wife and mother, he and his second wife, Edith, made the house a home for their growing and rambunctious family. What began as the perfect getaway from unhealthy New York City summers in his grandfather's day became the Summer White House during Roosevelt's presidency. He hosted political guests like Henry Cabot Lodge and cultural luminaries like novelist Edith Wharton. Roosevelt spent his final years happily at Sagamore Hill, and after his death in 1919, the Theodore Roosevelt Association and the National Park Service preserved the house. With previously unpublished photographs and a detailed guide to the house and grounds, historian Bill Bleyer recounts bygone days at Roosevelt's haven.

Hidden History of Long Island - Richard Panchyk 2016

"Long Island's history is filled with fascinating firsts, magnificent mansions and fascinating characters. From Glenn Curtiss, the first pilot to fly a plane on the island, to Earle Ovington, who carried the country's first airmail, the area has been known as the cradle of aviation. Millionaire William K. Vanderbilt's Long Island Motor Parkway, remnants of which still remain, was the nation's first highway. The desolate ruins of an exiled Albanian king's estate lie in the midst of the woods of the Muttontown Preserve. Captain William Kidd, pirate chaser turned pirate, is rumored to have buried treasure on the island. Richard Panchyk reveals the rapidly vanishing traces of Long Island's intriguing history"--Publisher description.

King's Handbook of Boston Harbor - Moses Foster Sweetser 1882

This deluxe, illustrated guide to Boston Harbor does for that body of water what King's Dictionary does for the city of Boston. In the Index to the Text you will find entries here for everything from Burning Ships to Clams, from Nut Island to Ocean Spray to Pilot-boats, and from Pirates to Seashore Home for Children. Historical events, persons, and places are also included. Indeed, very little imaginable about Boston Harbor is not included. This is still a very readable and entertaining guide for visitors to Boston Harbor today!

Theodore Roosevelt in the Field - Michael R. Canfield 2015-11-16

Never has there been a president less content to sit still behind a desk than Theodore Roosevelt. When we picture him, he's on horseback or standing at a cliff's edge or dressed for safari. And Roosevelt was more than just an adventurer—he was also a naturalist and campaigner for conservation. His love of the outdoor world began at an early age and was driven by a need not to simply observe nature but to be actively involved in the outdoors—to be in the field. As Michael R. Canfield reveals in *Theodore Roosevelt in the Field*, throughout his life Roosevelt consistently took to the field as a naturalist, hunter, writer, soldier, and conservationist, and it is in the field where his passion for science and nature, his belief in the manly, "strenuous life," and his drive for empire all came together. Drawing extensively on Roosevelt's field notebooks, diaries, and letters, Canfield takes readers into the field on adventures alongside him. From Roosevelt's early childhood observations of ants to his notes on ornithology as a teenager, Canfield shows how Roosevelt's quest for knowledge coincided with his interest in the outdoors. We later travel to the Badlands, after the deaths of Roosevelt's wife and mother, to understand his embrace of the rugged freedom of the ranch lifestyle and the Western wilderness. Finally, Canfield takes us to Africa and South America as we consider Roosevelt's travels and writings after his presidency. Throughout, we see how the seemingly contradictory aspects of Roosevelt's biography as a hunter and a naturalist are actually complementary traits of a man eager to directly understand and experience the environment around him. As our connection to the natural world seems to be more tenuous, *Theodore Roosevelt in the Field* offers the chance to reinvigorate our enjoyment of nature alongside one of history's most bold and restlessly

curious figures.

[Theodore Roosevelt for Kids](#) - Kerrie Logan Hollihan 2010-04-28

Theodore Roosevelt's heart was as big as the great outdoors he loved. A sickly, undersized boy, he grew into a physically fit, energetic man whose courage knew no bounds. Roosevelt hailed from the top of American society, but wealth could not shield him from human tragedy. As leader of a young, vigorous nation, he steered a middle course between the power brokers of big business and the needs of ordinary working people. A keen student of nature, Roosevelt would protect millions of acres for posterity. He was a writer, ranchman, politician, soldier, explorer, family man, and America's 26th president, the youngest person to ever hold the office. Theodore Roosevelt for Kids brings to life this fascinating man, an American giant whose flaws were there for all the world to see. Twenty-one hands-on activities offer a useful glimpse at Roosevelt's work and times. Readers will create a Native American toy, explore the effects of erosion, go on a modern big game hunt with a camera, and make felted teddy bears. The text includes a time line, online resources, and reading list for further study. And through it all, readers will appreciate how one man lived a &“Bully!&” life and made the word his very own.

[Oyster Bay](#) - John E. Hammond 2009

Settled by the Dutch and English in the mid-17th century, the small hamlet of Oyster Bay has a rich history and retains much of its charm and character. Theodore Roosevelt purchased land at Oyster Bay in 1880 on which he built his home, Sagamore Hill. Oyster Bay became the focus of national attention from 1902 through 1908, when Roosevelt brought the executive branch of the government to Oyster Bay each summer. Many other wealthy New York City families built summer homes at Oyster Bay in the late 19th century, forming the nucleus of what became the gold coast setting for F. Scott Fitzgerald's *The Great Gatsby*. Louis Comfort Tiffany built his 110-room mansion at Oyster Bay, and "Typhoid Mary" Mallon was identified while working as a cook in the hamlet.

Fire Island Lighthouse - Bill Bleyer 2017-05-15

The first Fire Island Lighthouse was constructed in 1826 after numerous shipwrecks along the barrier island. A replacement tower built in 1858 incorporated innovations in lighthouse design such as the Fresnel lens. Vessels anchored offshore, known as lightships, augmented the lighthouse for many years. The Coast Guard shut down the site in 1973. Through the efforts of the Fire Island Lighthouse Preservation Society and the National Park Service, the beautiful structure was meticulously restored and the tower relit in 1986. Along with a selection of wonderful color photographs depicting the grandeur of the lighthouse, author Bill Bleyer charts the history of Long Island's cherished Fire Island Lighthouse.

Friends of the Earth - Pat McCarthy 2013-03-01

The history of American environmentalism is the history of men and women who dedicated their lives to protecting the nation's natural heritage. Almost singlehandedly, John James Audubon introduced the study of birds in North America. John Muir pushed a president and a nation into setting aside vast preserves, including Yosemite, Sequoia, Mt. Rainier, and the Grand Canyon. Marjory Stoneman Douglas did the same for the Florida Everglades, as did Mardy Murie with the Grand Tetons and the Arctic National Wildlife Refuge. Cordelia Stanwood, and later Roger Peterson, revolutionized and popularized birdwatching. Rachel Carson opened the world's eyes to the dangers of pesticides, and Julia &“Butterfly&” Hill saved a 1,000-year-old redwood while bringing to light the devastation of our old growth forests. Together, these environmentalists' inspiring life stories tell the story of American environmentalism, from its inception to the present day. In *Friends of Our Earth* readers will also learn how to put their concerns into action. Author Pat McCarthy gives step-by-step instructions on how to build a birdfeeder, conduct a water quality survey, start a compost pile, study the Greenhouse Effect, make plaster casts of animals tracks, create their own recycled paper, test for acid rain, and more. It includes a time line of historic milestones, popular outdoor parks and sites to visit or explore online, and Web resources for further study.

Landmarks & Historic Sites of Long Island - Ralph F. Brady 2012-07-17

Everyone lucky enough to live on Long Island already knows that it's like nowhere else in the world. From lighthouses and a one-hundred-year-old carousel to World War II camps and missile sites, Long Island native Ralph Brady reveals the secrets to what makes this little-big island so special with a tour of some of

Nassau and Suffolk's most historic locations. Walt Whitman, William Vanderbilt, Theodore Roosevelt and many others occupied remarkable homes around the island. Charles Lindbergh made his historic flight to France from what is now a shopping mall. For many years, a Long Island factory gave the world the game of Scrabble. Even the waters teem with history, with the modern submarine making its start off the coast. Come explore these and other settings from Long Island's past.
