### **Cccm Contract Management Exam Study Guide & Practice Questions, 2018-19** - Examreview 2018-01-31

In the current CCCM exam syllabus, General Business Knowledge is no longer tested. HOWEVER, taking into account the fact that knowledge on the general business environment would help a lot in your exam study effort (even though the GB module is no longer required), some GB related materials are retained in this study guide. The focus of the exam is more on the UCC Articles 1, 2 and 2a and some general commercial contracting elements. If you are new to contract management, use this study guide TOGETHER WITH other sources of information to prepare for the exam. The exam is easy only if you are experienced in contract management. If you are not, then lots of readings would have to be done. As of the time of this writing, CCCM is in a format of 150 questions per exam. The 110 question format is no longer in use. In this study product we have both contracting-specific and business knowledge sections. We label those business knowledge sections as "General Business Knowledge" sections. These sections have information that is not on the technical aspect of contracting but is still relevant for day-to-day contract admin works. Practice Questions and Answers are available at the end of the book. If you purchase this book you do not need to purchase our CCCM Self Practice Questions module separately.
