Messages to the Antipodes - Shoghi Effendi 2007-03-08
This compilation of communications from Shoghi Effendi, the Guardian of Bahá'u'lláh's Faith, provides deep insight to the manner in which, over a period of some four and a half decades, he single-handedly raised vibrant Bahá'í communities in Australia and New Zealand. Boundless love, patience and encouragement perfume the communications of Shoghi Effendi

with the three protagonists of the Divine Plan- individuals, institutions and the community- whether written by him or on his behalf, the latter invariably accompanied by a personal note of endearment in his own hand. The Guardian's humility, his spirit of servitude, the openness of his heart and mind, and the power of his voice, permeate his correspondence, constantly urging the friends to arise and, in so doing, to turn to 'Abdu'l-Bahá as their guide and refuge while perceiving himself as but their "devoted brother and co-worker". The magnetism of his self-sacrificing love inspired and empowered the handful of early believers in Australia and New Zealand, and later in the Pacific Islands, to arise to fulfil ambitious goals in spreading the healing message of Bahá'u'lláh and establishing the Administrative Order of the Faith.

Excerpt from The Stickney Family: A Genealogical Memoir of the Descendants of William and Elizabeth Stickney From 1637 to 1869 The Normans when they came into England, at the conquest, brought in the use of surnames taken from the places they were from, or possessed, with the prefix de (norman-french). The eldest son continued to bear it (frequently dropping the de) as long as the family existed. According to Camden it was the custom of the Normans' younger sons to take a

surname from the villages or cities, which, in very early times, their fathers bestowed upon them; and so I account for a Norman taking the surname of Stickney. Where the Yellow Flowers Grow - Rebekah Ruth
2015-11-02

When Megan McKenna was fourteen years old, she received a love letter and a bouquet of her favorite yellow flowers. She might have been swept off her feet if it weren't for the fact that the unexpected attention had come from a nerdy sixteen-year-old with an overbite and terrible eyesight. Embarrassed, she tossed the flowers and letter into the trash without the courage to even look back at the face behind those coke-bottle glasses. By the end of the school year, the boy had moved away from their little Irish town, and Megan was left with a guilty conscience and a slightly queasy feeling at the sight of yellow flowers. Ten years later, after breaking up with her cheating fiance and subsequently finding herself at the wrong end of a public scandal, Megan has decided she's done with men. And no, she doesn't care how hot the new doctor is. She's not interested. Dr. David O'Brien has accepted a temporary position in a small country town; a town he hasn't seen since he was sixteen when his family moved to America. A town he hasn't seen without the aid of coke-bottle glasses."

Where the Pink Houses Are - Rebekah Ruth 2011

When unthinkable tragedy strikes, will Brenna and her mother-in-law, Anna, find healing half a world away amid the green Irish hills? Brenna begins to think she may be able to build a new life in a new land when Anna's eccentric family welcomes her with open arms. But it's in the arms of the town heartbreaker, Luke Dillon, that she begins to wonder if she can truly fall in love again. Luke is a handsome charmer who's used to getting what he wants. Just talking to him ties Brenna's stomach in knots and sets her cheeks ablaze. He's persistent too. She tells him she's not interested but he doesn't listen. Secretly, she loves his attention but something tells her to be careful. Is he good for her or will a relationship with him lead her straight into more heartbreak? As if one confusing relationship isn't enough, when Brenna meets Ryan Kelly she's instantly drawn to him. He's like no guy she's ever met. While every guy in town has been asking her out, Ryan doesn't seem to have any romantic interest in her at all. He's much older than she is and he's only interested in friendship—yet she can't stop thinking about him. Brenna questions her sanity when she finds herself falling for two very different men at the same time. As always, Anna has comforting and wise advice but Brenna needs to decide for herself as she struggles to understand God's plan for her life. Should she give in to Luke's attentions? Will her new friendship with Ryan become something more? Or will events that none of them can foresee take her life down a frightening new path?

The Ethics of Identity - Kwame Anthony Appiah 2010-06-28

Race, ethnicity, nationality, religion, gender, sexuality: in the past couple of decades, a great deal of attention has been paid to such collective identities. They clamor for recognition and respect, sometimes at the expense of other

things we value. But to what extent do "identities" constrain our freedom, our ability to make an individual life, and to what extent do they enable our individuality? In this beautifully written work, renowned philosopher and African Studies scholar Kwame Anthony Appiah draws on thinkers through the ages and across the globe to explore such questions. The Ethics of Identity takes seriously both the claims of individuality--the task of making a life--and the claims of identity, these large and often abstract social categories through which we define ourselves. What sort of life one should lead is a subject that has preoccupied moral and political thinkers from Aristotle to Mill. Here, Appiah develops an account of ethics, in just this venerable sense--but an account that connects moral obligations with collective allegiances, our individuality with our identities. As he observes, the question who we are has always been linked to the question what we are. Adopting a broadly interdisciplinary perspective, Appiah takes aim at the clichés and received ideas amid which talk of identity so often founders. Is "culture" a good? For that matter, does the concept of culture really explain anything? Is diversity of value in itself? Are moral obligations the only kind there are? Has the rhetoric of "human rights" been overstretched? In the end, Appiah's arguments make it harder to think of the world as divided between the West and the Rest; between locals and cosmopolitans; between Us and Them. The result is a new vision of liberal humanism--one that can accommodate the vagaries and variety that make us human.
