Hell's Angels - Hunter S. Thompson 2012-08-01

Gonzo journalist and literary roustabout Hunter S. Thompson flies with the angels—Hell's Angels, that is—in this short work of nonfiction. "California, Labor Day weekend . . . early, with ocean fog still in the streets, outlaw motorcyclists wearing chains, shades and greasy Levis roll out from damp garages, all-night diners and cast-off one-night pads in Frisco, Hollywood, Berdoo and East Oakland, heading for the Monterey peninsula, north of Big Sur. . . The Menace is loose again." Thus begins Hunter S. Thompson's vivid account of his experiences with California's most notorious motorcycle gang, the Hell's Angels. In the mid-1960s, Thompson spent almost two years living with the controversial Angels, cycling up and down the coast, reveling in the

anarchic spirit of their clan, and, as befits their name, raising hell. His book successfully captures a singular moment in American history, when the biker lifestyle was first defined, and when such countercultural movements were electrifying and horrifying America. Thompson, the creator of Gonzo journalism, writes with his usual bravado, energy, and brutal honesty, and with a nuanced and incisive eye; as *The New Yorker* pointed out, "For all its uninhibited and sardonic humor, Thompson's book is a thoughtful piece of work." As illuminating now as when originally published in 1967, *Hell's Angels* is a gripping portrait, and the best account we have of the truth behind an American legend.

Fatal Tide - Lis Wiehl 2013-09-24

In East Salem, the elite St. Adrian's Academy is at the nexus of a satanic apocalypse—and the fatal tide is rising. When Hieronymus Bosch's Garden of Earthly Delights is reunited with the pagans who commissioned it, a dark prophecy begins to unfold in East Salem, beginning with a savage double-murder by hellish creatures straight out of the painting itself. The lone survivor of the attack, a seventeen-year-old Brit, finds sanctuary at Tommy Gunderson's home—and the place is

soon surrounded by demons who seem to be biding their time . . . but for how long? Tommy's pond has been contaminated with Provivilan—an insidious drug that could transform New York City's children into an army of violence addicted murderers. But for an occult cabal in the upper echelons of Linz Pharmaceuticals, contaminating the water supply is just part of an ancient conspiracy against all of humankind. As the clouds gather, Tommy and Dani realize they must infiltrate Linz and St. Adrian's to stop the dissemination of Provivilan. Even then, it could take a tangible eruption of the battle between angels and demons to save humanity from the supernatural evils that have been summoned to East Salem.

Zen and the Art of Motorcycle Maintenance - Robert M. Pirsig
2009-04-21

THE CLASSIC BOOK THAT HAS INSPIRED MILLIONS A penetrating

examination of how we live and how to live better Few books transform a generation and then establish themselves as touchstones for the generations that follow. Zen and the Art of Motorcycle Maintenance is one such book. This modern epic of a man's search for meaning became an instant bestseller on publication in 1974, acclaimed as one of the most exciting books in the history of American letters. It continues to inspire millions. A narration of a summer motorcycle trip undertaken by a father and his son, Zen and the Art of Motorcycle Maintenance becomes a personal and philosophical odyssey into fundamental questions on how to live. The narrator's relationship with his son leads to a powerful self-reckoning; the craft of motorcycle maintenance leads to an austere beautiful process for reconciling science, religion, and humanism. Resonant with the confusions of existence, this classic is a touching and transcendent book of life. This new edition contains an interview with Pirsig and letters and documents detailing how this extraordinary book came to be.

Airbus A380 - Robert Wicks 2017-11-15

The Airbus A380 is the world's most recognised and most talked about airliner since the Boeing 747 and Concorde appeared in the skies in the late 1960s. Designed to challenge Boeing's monopoly in the large-aircraft market, it made its first flight in April 2005, entering commercial service two years later with Singapore Airlines. This jet has become so popular that every four minutes--24 hours a day, seven days a week--an A380 is taking off or landing somewhere in the world. There is no other development in recent aviation history to rival this remarkable aircraft.
