**Ferrari Fever** - Marc Sonnery 2014-01-31

Ferrari Fever is a fascinating and nostalgic look back at the classic car collecting scene in the 60's and 70's, an era when some of the rarest and most interesting Italian automobiles could still be found hidden or languishing in barns, junkyards or by the side of the road...almost lost in time. Paul Schouwenburg's story begins in wartime occupied Amsterdam, a poignant backdrop to the hardships of the years to follow, when the appearance of any exotic Italian thoroughbred was a rare sight indeed. Fuelled by a fascination for all things mechanical, adventures on a Rudge bicycle and early experiences in his parents' succession of Rovers, Paul gains a burning passion for finding, restoring, and ultimately racing Italian cars. But these were not just any Italian cars -from the early 60s onwards, he begins to uncover several rare Alfas, from 1900CSS Zagato to Tipo 33/2, in addition to a host of very special Ferraris, including a 250GTO, 340 America Touring, 250 MM Vignale Berlinetta, 250GT SWB

Competition/61 and 275GTB/C/LM, usually by word of mouth or tenuous rumour. Having acquired them, often many different models at a time, he would drive them home across Europe through snow storms, and restore them single-handedly in his spare time, full-time job as a world-leading head and neck cancer surgeon permitting! If that wasn't exciting enough, he would then race them, often winning, before moving on to the next irresistible project. Filled with rich anecdotes and rare insights into the colourful characters of the day, including Jacques Swaters and Rob de la Rive Box, Paul's passion and incredible drive make for exciting reading. Indeed this is a unique take, a look in the rear view mirror at a bygone era when gems could be found incredibly cheaply and enthusiasts took seat-of-the-pants decisions regarding many aspects of a hobby which was uncharted, innocent and simply not as commercial as today he couldn't even give away his 250 GTO at the time!

**The New ICT Ecosystem** - Martin Fransman  
2010-03-25

"The ICT sector is crucial as a driver of economic and social growth. Not only is it an important industry in its own right, but it also provides the communication and infrastructure without which modern economies could not function. How does this sector work? Why is it stronger in some countries than in others? What should companies, governments and regulators be doing to enhance its contribution? In The New ICT Ecosystem, Martin Fransman answers these and other questions by developing the idea of the ICT sector as an evolving ecosystem. He shows that some components of the ICT ecosystem, particularly the innovation process, work better in some countries and regions (e.g. the USA) than in others (e.g. Europe and the developing world). This enables policy makers and regulators to understand why some parts of the ICT ecosystem are underperforming and what can be done to enhance their performance. The previous edition of The New ICT Ecosystem won the 2008-09 Joseph Schumpeter Prize"--

**Let Me Sell You a Ferrari** - Robert E. Guarino  
2021-06-01

The moment in 1958 when a sports car-crazed youth in Massachusetts saw his first Ferrari changed his life. The black 250 GT coupe's seductive lines, purposeful air and already hallowed name seized Robert E. Guarino's imagination; just a few years later, he would be selling such cars. And in 1967, with two partners and an investment of just \$6,000 apiece, he would open a Ferrari-Porsche-Datsun dealership. This memoir follows his lifelong journey with Ferraris and other remarkable automobiles, as an enthusiast and dealer. Highlights include a

nonstop drive from Chicago to Boston in a 308 GTB; rides with important figures like Piero Ferrari at Fiorano and Dario Benuzzi at Mugello; visits to the Ferrari, Maserati and Lamborghini factories; the horror of watching a delivery truck crash onto a row of new cars; and time at the wheel of such icons as the 365 GTB/4 "Daytona," 250 GTO, 288 GTO and F40.

*Alfa Romeo 916 GTV and Spider* - Robert Foskett 2013-03-01

Alfa Romeo 916 GTV and Spider traces the complete story of the Alfa Romeo GTV and Spider models produced between 1994 - 2005, commonly known to enthusiasts by the manufacturer's project code as the 916 series. The 916 models would always be controversial - they replaced the iconic Spider, the best-selling Alfa Romeo sports model of all time, and the brand-establishing Alfetta GTV. Sharing components and a platform with a humble Fiat hatchback, would the cars ever be considered 'real' Alfa Romeos? The cars were critically acclaimed, and, though they faced tough competition in the late 1990s from the likes of the Audi TT, they remained in production for over a decade. Topics covered include: Full history of the 916 series GTV and Spider models; Design, development and evolution of the models from 1994 - 2005; Participation of the GTV in motorsport; Model variations in depth through all three facelifts; Previously unpublished production figures, and chassis numbers for the desirable, limited-edition GTV Cup model. Comprehensively researched guide to the entire lifespan of the 916 series. Will appeal to Alfa Romeo and automotive enthusiasts. The history and design process are examined along with an in-depth guide to each of the model variants produced. The cars' current position in the classic car market is considered. Superbly illustrated with 240 colour photographs. Robert Foskett is a life-long Italian car enthusiast with a special interest in Alfa Romeo.

This is the story of an unstoppable force coming up against the stubbornness of an immovable object - that is, Ford against Ferrari. Enzo Ferrari, whose company produced fewer than four hundred cars per year in 1963, wasn't going to bow to Ford after he had turned down its offer to buy his company. The only place left to duke it out was on the racetracks of the world ... and one in particular: Le Mans '66.
