Gravel Roads - Ken Skorseth 2000

The purpose of this manual is to provide clear and helpful information for maintaining gravel roads. Very little technical help is available to small agencies that are responsible for managing these roads. Gravel road maintenance has traditionally been "more of an art than a science" and very few formal standards exist. This manual contains guidelines to help answer the questions that arise concerning gravel road maintenance such as: What is enough surface crown? What is too much? What causes corrugation? The information is as nontechnical as possible without sacrificing clear guidelines and instructions on how to do the job right.

It includes technical descriptions of pumping systems and their components, and guides the reader through the evaluation of different speed control options. Case studies help illustrate the life cycle cost savings and process improvements that appropriate variable speed pumping can deliver. · Authoritative, global reference to Variable Speed Pumping, by Europump and the Hydraulic Institute· Combines the technical knowledge of pump, motor and control systems in one guide· Brings together all the concepts, metrics and step-by-step decision-making support you need to help you decide which VSD strategies are most appropriate· Will help you design and specify pumping applications that minimise life-cycle costs

The New Global Student - Maya Frost 2009-05-19

Good-bye, Old School. Hello, Bold School! In 2005, Maya Frost and her husband sold everything and left their suburban American lifestyle behind in order to have an adventure abroad. The tricky part: they had to shepherd their four teenage daughters through high school and into college. This hilarious and conspiratorial how-to handbook describes the affordable, accessible, and stunningly advantageous options they stumbled upon that any American student can leverage to get an outrageously relevant global education. Ready to ditch the drama of the traditional hypercompetitive SAT/AP/GPA path? Meet the bold American students who are catapulting into the global economy at twenty with a red-hot college diploma, sizzling 21st-century skills, a blazing sense of direction—and no debt. You'll discover:

- the one thing preventing your student from blasting forward
- why Advanced Placement isn't so advanced
- why international programs fail to provide a truly global education
- the most critical time for your student to study abroad
- the best exchange program in the world (\$3,000 or less per year)
- the strategic way to fast-forward through high school
- how to maximize a family sabbatical
- how to live the life of your dreams abroad—and save thousands for college

Packed with myth-busting facts, laughable loopholes, insider insights, astonishing success stories, and poignant tales from the Frost daughters themselves, this inspiring romp is guaranteed to get you cheering.
