Lights and Sirens - Kevin Grange 2015-06-02

A true account of going through UCLA's famed Daniel Freeman Paramedic Program—and practicing emergency medicine on the streets of Los Angeles. Nine months of tying tourniquets and pushing new medications, of IVs, chest compressions, and defibrillator shocks—that was Kevin Grange's initiation into emergency medicine when, at age thirty-six, he enrolled in the "Harvard of paramedic schools": UCLA's Daniel Freeman Paramedic Program, long considered one of the best and most intense paramedic training programs in the world. Few jobs can match the stress, trauma, and drama that a paramedic calls a typical day at the office, and few educational settings can match the pressure and competitiveness of paramedic school. Blending months of classroom instruction with ER rotations and a grueling field internship with the Los Angeles Fire Department, UCLA's paramedic program is like a mix of boot camp and med school. It would turn out to be the hardest thing Grange had ever done—but also the most transformational and inspiring. An in-depth look at the trials and tragedies that paramedic students experience daily, *Lights and Sirens* is ultimately about the best part of humanity—people working together to help save a human life.

*A Thousand Naked Strangers* - Kevin Hazzard 2016-01-05

A former paramedic's visceral, poignant, and mordantly funny account of a decade spent on Atlanta's mean streets saving lives and connecting with the drama and occasional beauty that lies inside catastrophe. In the aftermath of 9/11 Kevin Hazzard felt that something was missing from his life—his days were too safe, too routine. A failed salesman turned local reporter, he wanted to test himself, see how he might respond to pressure and danger. He signed up for emergency medical training and became, at age twenty-six, a newly minted EMT running calls in the worst sections of Atlanta. His life entered a different realm—one of blood, violence, and amazing grace. Thoroughly intimidated at first and frequently terrified, he experienced on a nightly basis the adrenaline rush of walking into chaos. But in his downtime, Kevin reflected on how people's facades drop away when catastrophe strikes. As his hours on the job piled up, he realized he was beginning to see into the truth of things. There is no pretense five beats into a chest compression, or in an alley next to a crack den, or on a dimly lit highway where cars have collided. Eventually, what had at first seemed impossible happened: Kevin acquired mastery. And in the process he was able to discern the professional differences between his freewheeling peers, what marked each—as he termed them—as “a tourist,” “true believer,” or “killer.” Combining indelible scenes that remind us of life's fragile beauty with laugh-out-loud moments that keep us smiling through the worst, *A Thousand Naked Strangers* is an absorbing read about one man's journey of self-discovery—a trip that also teaches us about ourselves.

Breathing Lessons: A Doctor's Guide to Lung Health - MeiLan K. Han 2021-11-02

An authoritative, accessible guide to how our lungs work and how to protect them. Every day, our lungs circulate 11,000 liters of air, provide us with life-sustaining oxygen, and allow us to speak, sing, and smell. It's no secret that our lungs are one of our most vital organs, and yet most of us pay them little attention. The COVID-19 pandemic, however, has reminded us of the importance of our lungs, and sparked interest in their function and the risks they face. In Breathing Lessons, leading pulmonologist and national spokesperson for the American Lung Association Dr. MeiLan K. Han takes readers on a fascinating tour of this neglected yet crucial organ. Han explains the wonder of breathing and reveals how the lungs serve as the body's first line of defense. She provides a timely overview of the latest scientific thinking about the leading respiratory risks—including indoor and outdoor pollution, smoking and vaping, wildfire smoke, and viruses like SARS-CoV-2—and offers practical advice on how to protect the lungs at each stage of our lives, beginning in the womb. She outlines the major categories of chronic lung disease and demystifies the process lung doctors go through in making a diagnosis and recommending treatments. With authority as

both practitioner and medical researcher, Han argues powerfully for social policies that make preserving lung health a national priority. Breathing Lessons is a rallying cry for lung health and an urgent call to start giving our lungs the attention they deserve.

**Scars and Stripes** - Tim Kennedy 2022-06-07

INSTANT NEW YORK TIMES BESTSELLER From decorated Green Beret sniper, UFC headliner, and all around badass, Tim Kennedy, a rollicking, inspirational memoir offering lessons in how to embrace failure and weather storms, in order to unlock the strongest version of yourself. Tim Kennedy has a problem; he only feels alive right before he's about to die. Kennedy, a Green Beret, decorated Army sniper, and UFC headliner, has tackled a bull with his bare hands, jumped out of airplanes, dove to the depths of the ocean, and traveled the world hunting poachers, human traffickers, and the Taliban. But he's also the same man who got kicked out of the police department, fire department, and as an EMT, before getting two women pregnant four days apart, and finally, been beaten up by his Special Forces colleagues for, quite simply, “being a selfish asshole.” In Scars and Stripes, Kennedy describes how these failures shaped him into the successful businessman and devoted husband and father he is today. Through unbelievably vivid, wild anecdotes Kennedy reveals all the dumb, violent, embarrassing, and undeniably heroic things he's done in his life, including multiple combat missions in Afghanistan, building a school in Texas for elementary kids, and creating two-multimillion-dollar businesses. You will learn that failure isn't the end—rather it's the first step towards unearthing the best version of yourself and finding success, no matter how overwhelming the setbacks may feel.
