The Localist - Carrie Rollwagen 2014-11-12

The Localist: Think Independent, Buy Local, and Reclaim the American Dream is the story of one girl's journey from buy-local blogger to woman entrepreneur and indie-shop advocate. When Carrie Rollwagen decided to give up corporate shopping for a year and instead shop local-only, she knew that she'd have to learn how to shop local, that she'd discover new indie businesses, and that she'd need to makeover her shopping habits. What she didn't know is that she'd save money, discover how to connect with her community, and learn to love indie business more than the big box stores she'd bought from all her life. She also didn't know that, before her buy-local year was over, she'd be the owner of her own independent business, a community coffee shop and indie bookstore in

Birmingham, Alabama. In The Localist, we follow Carrie on her localist adventure as she embraces slow food, small business, the locavore movement, and many quirky indie shopkeepers and unique independent shops along the way. She tells the story of her year of blogging about buying local in Birmingham, Alabama, and she gives us an inside look at her experience as a new female entrepreneur opening a new neighborhood business: Church Street Coffee & Books, an independent bookshop and locally owned coffee shop. Part memoir, part manual on how to shop local, The Localist is pro-community, but it's not necessarily anti-corporate. Carrie doesn't attack all big business, but rather shows us what we create with our shopping dollars and helps us see new ways of making positive impact on our communities with our spending. Big box stores are convenient, but corporations are not people, and it's important that we shop local and support indie business to keep the scales balanced between Main Street and Corporate America. Carrie Rollwagen is a copywriter and independent business owner based in Birmingham, Alabama. The Localist: Think Independent, Buy Local, and Reclaim the American Dream, based on her year-long blog about choosing independent shops over big box stores, is her first book.

The Complete Idiot's Guide to Motor Scooters - Bev Brinson 2007

The standard mode of transportation for decades in Europe, motor scooter was a cult "fun" vehicle in the USA until the past two years. With oil prices soaring and the 20-to-40 set looking for alternative means of commuter (and weekend cruising) travel, motor scooter have exploded across the United States. In 2001, less than 30,000 scooters cruised U.S. roadways. In 2005, over 100,000 are road-bound, and the number is growing by double digits each year. Beginning at \$1,000 and ranging up over \$5,000, dozens of models of scooters are available, as are thousands of accessories. And scooter clubs meet from San Diego to Bangor, Maine. Every year, the largest gathering of motor scooters takes place in Indianapolis, speed capital of the world. The Complete Idiot's Guide to Motor Scooters is the perfect introduction to the wonderful world of motor scooting.

Time and Tide - Lenalee N. Robinson 2022-07-25

Lucy Nash has just finished up her sophomore year of high school and is anticipating an uneventful summer at her rural Georgia home. . . that is, until a weird twist of fate and physics takes her on a trip back through time to the year 1975 with Cameron Hall, a boy her age whose own time is thirty years into her future. Cameron is hoping to stop a series of child disappearances, one of which deeply affected his family, and ends up teaming up with his accidental "passenger" to solve the crime. But despite their access to resources from the future, can two teenagers resolve a mystery that has remained a cold case for over sixty years. . . and what impact will their presence in the past have on their own lives - and their own futures?

The Beginners Guide to Meditation - Briana Jones 2016-02-24

The very essence of meditation is finding peace within the chaos that enshrouds us all in our daily lives, and if we can just get ourselves to look at that daunting word a little bit differently, we will come to see that we don't need to have that sacred temple or shrine wherein we seek to cast aside our thoughts and enter the blissful state of no mind we so desperately seek to attain. In this book you will learn all about the techniques that you will be able to use most effectively where it comes to performing meditation anywhere and anytime. You will come to see that what you once believed was a task best left to rishis and sages in the mystical Himalayas, is really something you can perform with the utmost ease, several times a day.

Terrace VI - Sarah L Johnson 2021-07-07

Welcome to the Sixth Terrace of Dante's tower of Purgatory, serving up sins of gluttony in an eternal banquet. On this carefully curated menu you'll find children stuffing themselves to death, a forgotten saviour gorging on cheeseburgers between bareknuckle rounds on the roadhouse circuit, wealthy socialites revel in an orgiastic alien feast, and the end of days as seen through an apocalyptic carnival of indulgence.

Excessive consumption also manifests in darker hungers, for cruelty, for distraction, or possession. A pair of grifters bent on having it all chase a Scottish leprechaun across the English countryside, a newly deceased addict vies for the attention of Heavenly Higher Ups, degenerate poker players gamble with unforeseen currency, and when an old lady swallows a fly, it's just the beginning... Featuring nine stories of grotesque appetite and glorious excess from a gory gaggle of creators, they say too much of anything is poison, yet these condemned swallow each piece of forbidden fruit while reaching for the next, never to be sated. They can't help themselves. Can you? Stories and art by: Mike Thorn (Darkest Hours, Shelter for the Damned) Robin van Eck (Rough) Eddie Generous (Camp Summit, What Lurks Beneath, Behemoth Rising) Julie Hiner (Final Track) Konn Lavery (Mental Damnation Series, Rutherford Manor Series) Cam Hayden (Futility, Red Flag) Sarah L. Johnson (Suicide Stitch, Infactus) Robert Bose (Fishing with the Devil)

[Radio Frequency and Microwave Electronics Illustrated](#) - Matthew M. Radmanesh 2001

Foreword by Dr. Asad Madni, C. Eng., Fellow IEEE, Fellow IEE Learn the fundamentals of RF and microwave electronics visually, using many thoroughly tested, practical examples RF and microwave technology are essential throughout industry and to a world of new applications-in wireless communications, in Direct Broadcast TV, in Global Positioning System (GPS), in healthcare, medical and many other sciences. Whether you're seeking to strengthen your skills or enter the field for the first time, Radio Frequency and Microwave Electronics Illustrated is the fastest way to master every key measurement, electronic, and design principle you need to be effective. Dr. Matthew Radmanesh uses easy mathematics and a highly graphical approach with scores of examples to bring about a total comprehension of the subject. Along the way, he clearly introduces everything from wave propagation to impedance matching in transmission line circuits, microwave linear amplifiers to hard-core nonlinear active circuit design in Microwave Integrated Circuits (MICs). Coverage includes: A scientific framework for learning RF and microwaves easily and effectively Fundamental RF and microwave concepts and their applications The characterization of two-port networks at RF and microwaves using S-parameters Use of the Smith Chart to simplify analysis of complex design problems Key design considerations for microwave amplifiers: stability, gain, and noise Workable considerations in the design of practical active circuits: amplifiers, oscillators, frequency converters, control circuits RF and Microwave Integrated Circuits (MICs) Novel use of "live math" in circuit analysis and design Dr. Radmanesh has drawn upon his many years of practical experience in the microwave industry and educational arena to introduce an exceptionally wide range of practical concepts and design

methodology and techniques in the most comprehensible fashion. Applications include small-signal, narrow-band, low noise, broadband and multistage transistor amplifiers; large signal/high power amplifiers; microwave transistor oscillators, negative-resistance circuits, microwave mixers, rectifiers and detectors, switches, phase shifters and attenuators. The book is intended to provide a workable knowledge and intuitive understanding of RF and microwave electronic circuit design. Radio Frequency and Microwave Electronics Illustrated includes a comprehensive glossary, plus appendices covering key symbols, physical constants, mathematical identities/formulas, classical laws of electricity and magnetism, Computer-Aided-Design (CAD) examples and more. About the Web Site The accompanying web site has an "E-Book" containing actual design examples and methodology from the text, in Microsoft Excel environment, where files can easily be manipulated with fresh data for a new design.

Best in Show - 2020-02-04

Best in Show is a collection of photographs of well-groomed and award-winning dogs by New York City-based photographer Dolly Faibyshev. The images from the Westminster Kennel Club Dog Show and beyond focus on the unique—and often humorous—relationship between each dog and their handler. Dolly Faibyshev focuses on kitsch, irony, and the larger than life human and canine characters that make up Best in Show. The result is a colorful, vibrant, campy, and satirical take on this specific slice of Americana. • The colorful, closely cropped juxtapositions of each coiffed canine contestant and their dedicated human are both humorous and charming. • Sure to delight fans of all breeds of dogs • A universal and ideal book for all canine lovers with a sense of humor Best in Show captures a specific subculture of dog devotees primarily from the infamous Westminster Kennel Club Dog Show at Madison Square Garden in New York. • A perfect book for anyone who is completely and totally obsessed with dogs and the Westminster Kennel Club Dog Show • Photographers and contemporary art lovers will also love this celebration of Dolly Faibyshev's work • Great for fans of The Dogist: Photographic

Encounters with 1,000 Dogs by Elias Weiss Friedman, Dogs by Lewis Blackwell and Tim Flach, and Underwater Dogs by Seth Casteel Riding Man - Mark Gardiner 2012-07-15

For 100 years, the Isle of Man Tourist Trophy races have been the world's most dangerous organized sporting event. As one of thirty thousand fans who attended the annual spectacle, Mark Gardiner harbored no illusions about his own skill or bravery. He was, however, an avid motorcyclist for whom the race represented a boyhood dream. He went home, quit his job, sold everything he owned, and returned to the Island to race there himself. Riding Man is the account of an Everyman, struggling to qualify for -- and survive -- the TT races. If you're a dreamer, the lesson in this book is that the pursuit of any worthwhile goal involves risks, rewards and, almost inevitably some regrets. If you're not a dreamer, the lesson is more important: the deepest regrets are always over risks not taken.

China's Uneven and Combined Development - Steven Rolf 2020-10-15

This book mobilises the theory of uneven and combined development to uncover the geopolitical economic drivers of China's rise. The purpose is to explain the formation and trajectory of its economic 'accumulation system' — which remains a confounding hybrid of statist and neoliberal forms of capitalism — as the outcome of China's geopolitical engagement of the USA during the late stages of the Cold War, and its participation in manufacturing global production networks (GPNs). Fear of geopolitical catastrophe drove China to open its economy, while GPNs enabled China to generate substantial export surpluses which could be recycled through state-owned banks as cheap credit and subsidies to large, vertically integrated and politically-controlled state-owned enterprises. In this way, a synergy emerged between the 'neoliberal' and 'Keynesian-Fordist' sectors of the economy, while the national-territorial state retained its form and expanded its functions. The book chronicles how this reliance on export surpluses, however, rendered China extremely vulnerable to external shocks — prompting a dramatic monetary and fiscal stimulus response to the crisis of 2008, even while sustaining the illusion of economic 'decoupling' from the global economy. Finally, it examines the growing role of the state in the current crisis-ridden economic model, as well as China's current geoeconomic and geopolitical expansionism in areas such as the Belt and Road Initiative and the militarisation of the East and South China Seas.
