**Hidden History of Boone County, Indiana** - Heather Phillips Lusk 2022-04

At the center of Indiana lies Boone County, a seemingly quiet place with a colorful past. The stagecoach along the Michigan Road helped to start the county, then the railroad transformed it as new towns were created along the routes. Some of these towns are now gone, leaving behind a few buildings and a sign marking where they once existed. Local vagabond Thorntown Cyrus entertained area residents with his accordion, a couple touted his and hers tractors, and the Cragun twins met a tragic demise. Mysteries surround true stories such as a rogue monkey seen wandering a community and why a butcher attacked a prominent citizen. Author Heather Phillips Lusk brings these stories and more to life to reveal what makes Boone County unique.

By winning the state high school basketball championship in 1955, ten teens from an Indianapolis school meant to be the centerpiece of racially segregated education in the state shattered the myth of their inferiority. Their brilliant coach had fashioned an unbeatable team from a group of boys born in the South and raised in poverty. Anchored by the astonishing Oscar Robertson, a future college and NBA star, the Crispus Attucks Tigers went down in history as the first state champions from Indianapolis and the first all-black team in U.S. history to win a racially open championship tournament—an integration they had forced with their on-court prowess. From native Hoosier and award-winning author Phillip Hoose comes this true story of a team up against impossible odds, making a difference when it mattered most. This title has Common Core connections.

**Indiana** - Howard Henry Peckham 2003

For much of Indiana's history, its distinctiveness has lain in its typicality. It has embodied--and continues to embody--values and behavior that are specifically American. In the late eighteenth century Indiana was the heart of the Old Northwest, a vast area conceived as a preserve where independent farmers and their families could live free from the shadow of slavery. During the Civil War, the state found itself divided, with Indianans' allegiances split between Southern partisans and zealous Yankees. Throughout this period, the workshops and farms of Indiana continued to provide the growing nation with food and other necessities. Countless small towns prospered; Indianapolis grew, and Gary, on the southern shore of Lake Michigan, became synonymous with steel production, symbolizing the industrial might of America. Readers all over the country embraced the writings of Indianans such as James Whitcomb Riley and Booth Tarkington, while Indiana's painters disseminated iconic and idyllic images of America. This comprehensive history traces the history of the Hoosier state, revealing its most significant contributions to the nation as a whole, while also exploring the unique character of its land and people. Howard H. Peckham relates recent changes in Indiana as a variety of ethnic and racial groups have come seeking a share in the good life, enriching and redefining this ever-changing state for the new millennium.

**The Big East** - Dana O'Neil 2021-11-09

The definitive, compulsively readable story of the greatest era of the most iconic league in college basketball history—the Big East “This book, full of long-standing rivalries, unmatched moments in the lives of coaches and players, and juicy insider gossip, is, like the game of basketball, a ton of fun.”—Philadelphia

magazine The names need no introduction: Thompson and Patrick, Boeheim and the Pearl, and of course Gavitt. And the moments are part of college basketball lore: the Sweater Game, Villanova Beats Georgetown, and Six Overtimes. But this is the story of the Big East Conference that you haven't heard before—of how the Northeast, once an afterthought, became the epicenter of college basketball. Before the league's founding, East Coast basketball had crowned just three national champions in forty years, and none since 1954. But in the Big East's first ten years, five of its teams played for a national championship. The league didn't merely inherit good teams; it created them. But how did this unlikely group of schools come to dominate college basketball so quickly and completely? Including interviews with more than sixty of the key figures in the conference's history, The Big East charts the league's daring beginnings and its incredible rise. It transports fans inside packed arenas to epic wars fought between transcendent players, and behind locker-room doors where combustible coaches battled even more fiercely for a leg up. Started on a handshake and a prayer, the Big East carved an improbable arc in sports history, an ensemble of Catholic schools banding together to not only improve their own stations but rewrite the geographic boundaries of basketball. As former UConn coach Jim Calhoun eloquently put it, "It was Camelot. Camelot with bad language."

**For the Good of The Game: Who Decides What's Right?** - Scott Kingdon 2020-03-05

When declared ineligible for interschool athletics by the Indiana High School Athletic Association (IHSAA), some athletes fight back. They file lawsuits to regain their athletic eligibility. In response to lawsuits, the IHSAA counterattacks. It resorts to numerous legal and regulatory tactics to dissuade athlete lawsuits. Athlete lawsuits helped to liberalize IHSAA rules for athletes who transferred high schools due to family illness, divorce, or economic misfortune. A female athlete's lawsuit transformed Indiana girls' athletics years prior to the effective date of Title IX regulations prohibiting discrimination by gender in education. In *For the Good of The Game: Who Decides What's Right?*, you will learn the stories of Johnell Haas, Bill and Frank Stevenson, Bill Schumaker, Warren Sturup, and Jasmine Watson and that 1) wisdom sometimes flows up, not down; 2) the process by which decisions are made can be as important as substance, and 3), "human nature never sleeps."

**The Rise of American High School Sports and the Search for Control** - Robert Pruter 2013-08-29

Nearly half of all American high school students participate in sports teams. With a total of 7.6 million participants as of 2008, this makes the high school sports program in America the largest organized sports program in the world. Pruter's work traces the history of high school sports from the student-led athletic clubs of the 1800s through to the establishment of educator control of high school sports under a national federation by the 1930s. Pruter's research serves not only to highlight this rich history but also to provide new perspectives on how high school sports became the arena by which Americans fought for some of the most contentious issues in society, such as race, immigration and Americanization, gender roles, religious conflict, the role of the military in democracy, and the commercial exploitation of our youth.

They were asked to capture in spare prose and black-and-white images the mood of a typical Indiana town as it prepares to bury a part of its heritage. *A March for Honor* is the result of that journey -- Wolff and Strohmeier transport the reader to Batesville, and take the reader through Batesville High's journey through the tournament. Rich with history and drama,, *A March for Honor* is not only a tale for basketball fans, but an elegy for anyone who treasures a small-town America that is rapidly disappearing.

**Chuck Taylor, All Star** - Abe Aamidor 2006-03-02

The true story of a man, a company, a sport, and a nation. In 1921, Converse hired 20-year-old Chuck Taylor as a salesman, sparking a nearly 50-year career that defined the Converse All Star basketball shoe. Although his name is on the label of the legendary All Stars, which have been worn by hundreds of millions, little is known about the man behind the name. For this biography, Abe Aamidor went on a three-year quest to learn the true story of Chuck Taylor. The search took him across the country, tracking down leads, separating fact from fiction, and discovering that the truth—warts and all—was much more interesting than the myth. Chuck Taylor was a basketball player who also served as a wartime coach with the US Army Air Forces and organized thousands of high school and college basketball clinics. He was a true "ambassador of basketball" in Europe and South America as well as all over the United States. And he was, to be sure, a

consummate marketing genius who was inducted into the Sporting Goods Hall of Fame and the Naismith Memorial Basketball Hall of Fame. "A fascinating study on a pioneer . . . and an instructive look at the roots of a billion-dollar industry." —American Way magazine

[The Black Athlete in West Virginia](#) - Bob Barnett 2020-04-09

This chronicle of sports at West Virginia's 40 black high schools and three black colleges illuminates many issues in race relations and the struggle for social justice within the state and nation. Despite having inadequate resources, the black schools' sports teams thrived during segregation and helped tie the state's scattered black communities together. West Virginia hosted the nation's first state-wide black high school basketball tournament, which flourished for 33 years, and both Bluefield State and West Virginia State won athletic championships in the prestigious Colored Intercollegiate Athletic Association (now Central Intercollegiate Athletic Association). Black schools were gradually closed after the 1954 Brown v. Board of Education decision, and the desegregation of schools in West Virginia was an important step toward equality. For black athletes and their communities, the path to inclusion came with many costs.

**Tales from Indiana High School Basketball: A Collection of the Greatest Indiana High School Basketball Stories Ever Told** - Jeff Washburn 2012-01-31

It is often said that while Dr. James Naismith invented basketball in Massachusetts, the sport was raised and ultimately came of age in the high schools of Indiana, the state where politics, religion, and sweet corn fall in line behind the game played with the round orange ball. Tales from Indiana High School Basketball centers on those special people who have played the game—their stories, their passion, their drive for excellence, their laughs, and their tears. This is a book about Lebanon schoolboy hero Rick Mount, the first prep basketball player ever featured on the cover of Sports Illustrated. The year was 1966, and Mount's sweet jump shot had college recruiters flocking to the city 30 minutes north of Indianapolis. It's about Gene Cato, the Indiana High School Athletic Association's former commissioner whose father—his high school coach—would not put the young scoring phenom into a game until his team's fans demanded it. It's also about Marion's "Purple Reign"—consecutive state championships in 1985, 1986, and 1987 when the Giants were the most important game on every opponent's schedule. John Wooden, Bobby Plump, Steve Alford, Damon Bailey. It's as easy for an Indiana high school basketball fan to roll the names off the tongue as it is to find the broadcast of a high school game on AM radio on any Friday night during an Indiana winter.

Tales from Indiana High School Basketball is not so much about statistics and winning streaks as it is about the personalities and emotions of those who created a phenomenon that neither a New York City cab driver nor a Malibu-based surfer could understand. These high school kids became heroes and legends. Their stories will live on through generation after generation. Tales from Indiana High School Basketball is much more than a compilation of intriguing roundball stories. It is a way of life in the Hoosier State. Author Jeff Washburn, a Lafayette Journal and Courier sportswriter since 1972, has been watching Indiana high school basketball for 50 years—since his mother took him to see the great Oscar Robertson and Indianapolis Crispus Attucks when the writer was six months old. Like most Hoosiers, the game is in his blood and certainly in his heart, from which these tales flow.

[Getting Open](#) - Tom Graham 2011-02-22

"A striking and honest portrait of a man overcoming racism in a place that barely acknowledged its existence." —Publishers Weekly Bill Garrett was the Jackie Robinson of college basketball. In 1947, the same year Robinson broke the color line in major league baseball, Garrett integrated big-time college basketball. By joining the basketball program at Indiana University, he broke the gentleman's agreement that had barred black players from the Big Ten, college basketball's most important conference. While enduring taunts from opponents and pervasive segregation at home and on the road, Garrett became the best player Indiana had ever had, an all-American, and, in 1951, the third African American drafted in the NBA. In basketball, as Indiana went so went the country. Within a year of his graduation from IU, there were six African American basketball players on Big Ten teams. Soon tens, then hundreds, and finally thousands walked through the door Garrett opened to create modern college and professional basketball. Unlike Robinson, however, Garrett is unknown today. Getting Open is more than "just" a basketball book. In the years immediately following World War II, sports were at the heart of America's common culture. And in the fledgling civil rights efforts of African Americans across the country, which would coalesce two decades later into the Movement, the playing field was where progress occurred publicly and symbolically. Indiana was an unlikely place for a civil rights breakthrough. It was stone-cold isolationist, widely segregated, and hostile to change. But in the late 1940s, Indiana had a leader of the largest black YMCA in the world, who viewed sports as a wedge for broader integration; a visionary university president, who believed his institution belonged to all citizens of the state; a passion for high school and college basketball; and a teenager who was, as nearly as any civil rights pioneer has ever been, the perfect person for his time and role. This is the story of how they came together to move the country toward getting open. Father-daughter authors Tom Graham and Rachel Graham Cody spent seven years reconstructing a full portrait of how these elements came together; interviewing Garrett's family, friends, teammates, and coaches, and digging through archives and dusty closets to tell this compelling, long-forgotten story.
