Althusser and Law - Laurent de Sutter
2013-03-05

Althusser and Law is the first book specifically dedicated to the place of law in Louis Althusser's philosophy. The growing importance of

Althusser's philosophy in contemporary debates on the left has - for practical and political, as well theoretical reasons - made a sustained consideration of his conception of law more necessary than ever. As a form of what Althusser called 'Ideological State Apparatuses', law is at the forefront of political struggles: from the destruction of Labour Law to the exploitation of Patent Law; from the privatisation of Public Law to the ongoing hegemony of Commercial Law; and from the discourse on Human Rights to the practice of judicial courts. Is Althusser still useful in helping us to understand these struggles? Does he have something to teach us about how law is produced, and how it is used and misused? This collection demonstrates that Althusser's ideas about law are more important, and more contemporary, than ever. Indeed, the contributors to Althusser and Law argue that Althusser offers a new and invaluable perspective on the place of law in contemporary life.

Eraser - Anna Kang 2018-09

Eraser is always cleaning up everyone else's mistakes. Except for Ruler and Pencil Sharpener, none of the other school supplies seem to appreciate her. They all love how sharp Pencil is and how Tape and Glue help everyone stick together. Eraser wants to create so that she can shine like the others. She decides to give it a try, but it's not until the rubber meets the road that Eraser begins to understand a whole lot about herself. Inspired by a school essay their daughter Kate wrote in the third grade, the author and illustrator behind Theodor Seuss Geisel Award-winner *You Are (Not) Small* have created a desktop drama about figuring out who you are, finding happiness, and the importance

of second, third, and maybe even fourth chances.

The North Shore - David Verran 2010-09-24
Auckland's North Shore has long been known as a place apart, a place of leisure known for its

beautiful beaches and relaxed lifestyle. Until the opening of the Auckland Harbour Bridge in 1959, it was viewed by many city-siders as a holiday destination, but the past 40 years have seen it transformed into a vital city in its own right. Yet its European origins go back to the earliest days of the settlement of Auckland. This lively history tells the story of the Shore's development from Maori and early contact times up to local body amalgamation and the formation of the first 'North Shore City' in 1989. It covers themes such as transport, industry, population growth and settlement patterns, arts and architecture, religion and sport. Presented in a coffee-table format, it is fully illustrated with historic photographs and paintings which will fascinate those familiar with the Shore as it is now. The book will be launched during the city's 2010 Heritage Week festival, in time to celebrate the city before Supercity amalgamation.

Crazy - Han Nolan 2018-04-01

A National Book Award-winning author's "moving" novel about "the emotional costs of mental illness, especially on teens forced to parent their own parents" (Booklist, starred review). His mother has died. His father is going crazy. For fifteen-year-old Jason, the only relief as he tries to hold things together is the group of imaginary friends who offer guidance as he tries not to draw attention to his father's deteriorating condition—or to himself. But between the traumas of his childhood and the squalor and stress he's dealing with right now, Jason's attempts to remain invisible may not be enough. To find a solution to this very real problem, he just might have to reach out to some very real people . . . In this compelling story by the author of *Dancing on the Edge*, Han Nolan "balances weighty subject matter with humor, offering an intelligent portrayal of a boy's slow release of burdens too heavy to carry alone" (Publishers Weekly).

A for Anything - Damon Knight 2011-09-29

We call it a gismo. That's right, a gismo. A bit difficult to describe. Like a cross, I suppose, without the top part. Sort of two arms on a stand. What happens is this. You hang something on one arm. Anything at all. A watch, a bracelet, money, anything. I supposed you could hang a locomotive on, only it's a bit heavy. But anyway you hang something on and there on the opposite arm appears an exact replica. And I

mean exact. You can't tell the difference. So nobody need make anything any more. What you need you hang on the gismo. No work. No want. No starvation. No nothing. When you've got a gismo, you've got everything.
