*The Living Roots of Music* -  
Lauren Pelon 2003

This lecture attempts to tell stories through music and about music, and about the music of several cultures and

times, about its effect on human experience, about the instuments and their makers in oder to try and connect the present time with some of music's own roots, a cause for much reflection on the part of the lecturer.

**Best in Show** - 2020-02-04 Best in Show is a collection of photographs of well-groomed and award-winning dogs by New York City-based photographer Dolly Faibyshev. The images from the Westminster Kennel Club Dog Show and beyond focus on the unique—and often humorous—relationship

between each dog and their handler. Dolly Faibyshev focuses on kitsch, irony, and the larger than life human and canine characters that make up Best in Show. The result is a colorful, vibrant, campy, and satirical take on this specific slice of Americana. • The colorful, closely cropped juxtapositions of each coiffed canine contestant and their dedicated human are both humorous and charming. • Sure to delight fans of all breeds of dogs • A universal and ideal book for all canine lovers with a sense of humor Best in Show captures a specific subculture of dog devotees primarily from the infamous Westminster Kennel Club Dog Show at Madison Square Garden in New York. • A perfect book for anyone who is completely and totally obsessed with dogs and the Westminster Kennel Club Dog Show • Photographers and contemporary art lovers will also love this celebration of Dolly Faibyshev's work • Great for fans of The Dogist: Photographic Encounters with

Packed with attractions, from world-class cities to charming coastal towns, California is a popular vacation destination--especially among international travelers. "Frommer's California" is one of the best California guides on the market, and this edition features all-new accommodation maps for each major city as well as expanded coverage of the wine country.

**An Environmental Study of Artisanal, Small, and Medium Mining in Bolivia, Chile, and Peru** - Gary

McMahon 1999-01-01

"Mining exploration investment in the Latin American and Caribbean region has increased 130 percent in the last five years, a figure which increases to 500 percent, if Chile is excluded."Governments have revamped mining legislation to

enable private investment while becoming more sensitive to environmental factors. In light of this legislation, this report examines the environmental effects of artisanal, small, and medium mines in three Latin American Countries: Bolivia, Chile, and Peru. Four of the most important elements to be considered are: □ The age of the mine □ Management of tailings □ The heterogeneity of the artisanal and small mine sectors □ The increasing need to take cultural considerations into account in the decision making process. The paper contains results of the studies on the various mining sectors, strategy and policy recommendations, and country study summaries.

### *Addressing Challenging Moments in Psychotherapy -*

Jerome S. Gans 2021-09-30

"This practical and helpful volume details how clinicians can work through various and common challenges inherent to psychotherapy, whether within the context of individual, marital, or group settings.

Chapters draw upon wisdom gleaned from the author's 48 years as a practicing psychiatrist to address topics such as using countertransference for therapeutic purposes; resistance, especially when it needs to be the focus of the therapy; and a prioritization of exploration over explanation and favor working in the here-and-now. Along with theory and clinical observations, Dr. Gans offers a series of "Clinical Pearls," pithy comments that highlight different interventions to a wide range of clinical challenges. These include patient hostility, the abrupt termination of therapy, treating a couple that's lost compassionate neutrality, and more. In addition to offering advice and strategies for therapists, the book also addresses foundational concerns like the matter of fees in private practice and the virtue of moral courage on the part of the therapist. Written with clarity, heart, and an abundance of clinical wisdom, *Challenging Moments in*

Psychotherapy is essential reading for all clinicians, teachers, and supervisors of psychotherapy"--

**National Air Quality and Emissions Trends Report - 1998**

**Yamaha YFM350 ATV Owners Workshop Manual -**

Alan Ahlstrand 1996-02-01  
Haynes disassembles every subject vehicle and documents every step with thorough instructions and clear photos. Haynes repair manuals are used by the pros, but written for the do-it-yourselfer.

**The Politics of Ecosystem Management - Hanna Cortner 1999**

Resource management in the United States is undergoing a fundamental change. Traditional sustained-yield approaches that focus on commodity production and human resource use are steadily giving way to ecological approaches, often referred to as ecosystem management, that have long-term ecological sustainability as their primary goal. To

achieve that goal, ecosystem management emphasizes socially defined goals and objectives, integrated and holistic science, collaborative decision making, and adaptable institutions. Political considerations are an essential component of ecosystem management, yet its socio-political context has been largely ignored by those studying and writing on the subject. The Politics of Ecosystem Management is the first book to focus entirely on the political challenges facing ecosystem management as it moves from theory to practice. The authors examine: the history of natural resource management in the United States the theory behind ecosystem management potential inconsistencies and contradictions in the themes of ecosystem management political philosophies that undergird traditional resource management alternative political principles inherent in ecosystem management opportunities and barriers for achieving collaborative

ecosystem management  
The Politics of Ecosystem Management considers the sweeping and profound changes that will be required of the American governance system -- its political philosophy, institutions, notions of citizenship, and politics, as well its resource management practices -- if the shift to ecosystem management is to be realized. It is a lucid and accessible volume that represents a vital contribution to the literature for students, researchers, and professionals involved with any aspect of developing and implementing ecosystem-based approaches to resource management.

**The Republican Takeover of Congress** - Dean McSweeney  
2016-07-27

An electoral earthquake hit the American political landscape in 1994. As the Republican Party won control of the House of Representatives for the first time since 1954 and control of the Senate for the first time

since 1986, the longest uninterrupted period of single party rule in the entire history of the United States Congress came to an end. The new congressional majorities were the most conservative in 50 years and immediately proceeded to dominate the political agenda in Washington. Scholars from Britain and the United States document these momentous developments, evaluating their impact on America's political institutions and political culture and their significance for the future development of American politics and government.

**Mercedes and the Chocolate Pilot** - Margot Theis Raven  
2013-08-15

A True Story of the Berlin Airlift and the Candy that Dropped from the Sky. Life was grim in 1948 West Berlin,

Germany. Josef Stalin blockaded all ground routes coming in and out of Berlin to cut off West Berliners from all food and essential supplies. Without outside help, over 2.2 million people would die. Thus began the Berlin Airlift, a humanitarian rescue mission that utilized British and American airplanes and pilots to fly in needed supplies. As one of the American pilots participating in the Airlift mission, Lt. Gail S. Halvorsen helped to provide not only nourishment to the children but also gave them a reason to hope for a better world. From one thoughtful, generous act came a lifelong relationship between Lt. Gail and the children of Berlin. This is the true story of a seven-year-old girl named Mercedes who lived in West Berlin during the Airlift and of the American who came to be known as the Chocolate Pilot. Artist Gijsbert van Frankenhuyzen's evocative paintings illuminate Margot Theis Raven's powerful story of hope, friendship and remembrance. About the

Author: Margot Theis Raven has been a professional writer working in the fields of radio, television, magazines, newspapers, and children's books for thirty years. She has won five national awards, including an IRA Teacher's Choice award. Ms. Raven earned her degree in English from Rosemont College and attended Villanova University for theater study, and Kent State University for German language. Ms. Raven splits her time living in Concord, MA, Charleston, SC and West Chesterfield, NH. About the Illustrator: Born in the Netherlands, Gijsbert van Frankenhuyzen studied at the Royal Academy of Arts in Holland. He immigrated to the United States in 1976, and years later he became a children's book illustrator. Mercedes and the Chocolate Pilot is Nick's ninth children's book with Sleeping Bear Press.

*Violence in Colombia* - 2000  
Colombia, one of South America's oldest, middle-income democracies, has developed rapidly despite a fifty year "simmering" civil war and increasing levels of urban and rural crime and violence. In the past decade, however,

the scale and intensity of violence has changed from a marginal conflict to generalized violence that now dominates the daily lives of most citizens. As remote guerilla activity has turned into country-wide "war," bringing in paramilitary groups, drug cartels, and other social actors, so too the causes of violence have changed. These have included both external events such as the collapse of the Cold War, as well as internal changes relating to economic liberalization, coal and oil developments and the impact of the global trade in illicit narcotics. Violence in Colombia is highly complex not only because of the different categories, but also due to its multiple causes. This paper combines disparate existing theories to develop an integrated framework that identifies four different levels of causality: structural, institutional, interpersonal, and individual. It recognizes the mutually reinforcing role played by factors at different levels of causality. Underlying

the causes of violence in Colombia is minimal state presence in many parts of the country, widespread corruption and impunity, high levels of

societal acceptance of violence, and a regionally fragmented country.
